WELCOME

Dear Esri Business partners,

In a Europe of regions, Austria is for sure a well-known and frequently visited one: Known for history, for culture, for music. In October 2015 we will add another reason to come here:

The Esri European User conference will stop over in Salzburg – in a conference centre that is actually built around the partner exhibition – where the social centre of the event is right where you will be, providing solutions to a pan-European User base that will gather here to learn and share.

Early planning, a dedication to service and our strong partners for this event will help you being successful. We are looking forward to welcoming you as exhibition partners and see you here in Salzburg in October 2015!
