

## Esri Mid-Atlantic Conference

Dec. 10 - Dec. 11, 2013 | Baltimore, MD

The Esri MUG Conference is committed to helping GIS users in the Mid-Atlantic Region to explore the best use of GIS technologies. To enhance this experience, we're looking for enthusiastic students to provide hands-on support to the conference committee, while learning practical applications of GIS at the same time!

Responsibilities of the student helpers include (but are not limited to) the following tasks: helping with on-site registration; setting up displays for the map gallery; running errands; and assisting the Esri conference coordinator with logistics support. Up to five (5) student helpers will be chosen, preferably no more than two from each college or university, based on the responses on this form. In exchange for helping at the conference, students will be given complimentary registrations for both days of the conference. In addition, one (1) top candidate selected will be awarded a \$250 scholarship to cover travel, lodging and food expenses!

Please complete the following form by October 31, 2013, and return to Casey Horst at 47 Loveton Circle, Suite H, in Sparks, Maryland 21152, via email at chorst@jmttg.com or by fax at (410) 472-0731. Students will be notified of their acceptance by mid-November. Please be prepared to respond to this notification within 24 hours.
