

Public Safety, Homeland/National Security, and Law Enforcement Events and Activities

The Esri International User Conference has many presentations and events with hundreds of topics covered. To help you find your way to the Public Safety, Law Enforcement, and Homeland/National Security sessions and events, we have prepared a more focused agenda.

Esri National Security Summit

July 6–9

Hilton San Diego Bayfront

The Geographic Approach: A Framework for Mission-Critical Decision Making

The Esri National Security Summit (formerly Esri Homeland Security Summit) is the world's largest geographic information system (GIS) event dedicated to homeland security, national security, and defense. It is attended each year by professionals from around the world, including executives, analysts, intelligence personnel, and frontline staff, to discover how Esri software, services, and partner agencies are improving mission workflows. The Esri National Security Summit will give you unique access to stakeholders like you charged with protecting the homeland. Experts from around the world will showcase the latest innovations and best practices. The event will provide executive leadership, intelligence analysts, and frontline responders with the opportunity to create better understanding of needs and capabilities. Emphasis on collaboration among defense, intelligence, law enforcement, and public safety organizations will equip you to better meet demands.

National Security Social

Sunday, July 7, 5:00 PM–7:00 PM

Hilton San Diego Bayfront Promenade Patio

Leading-edge GIS users in the public safety, defense, homeland/national security, intelligence, and law enforcement communities will gather to network and socialize before the weeklong conference.

National Security Showcase

Tuesday, July 9, 9:00 AM–6:00 PM

Wednesday, July 10, 9:00 AM–6:00 PM

Thursday, July 11, 9:00 AM–1:30 PM

SDCC, Exhibit Hall D, Ground Level

Esri's vision for protecting and securing a nation is about supporting geographic analysis, collaboration, and information sharing among the various stakeholders of national security. Visit the National Security Showcase to discover the power of deploying the Esri platform for national security, defense, intelligence, law enforcement, fire/emergency medical services (EMS), wildland fire, and emergency management. New to the showcase this year is the **Operations Platform for Safety/Security (OPS) Center Theater** featuring integrated demonstrations that will show you precisely how the ArcGIS platform supports national security mission objectives by working through security planning around a special event.
