

## ESRI Archaeology and GIS News

---

Number 0001 — October 20, 2000

---

Welcome to the first issue of ESRI Archaeology and GIS News, a newsletter for and about the ESRI Archaeology and GIS User Community.

You are receiving ESRI Archaeology and GIS News because you are involved in archaeological GIS activities, or related fields and interests.

This newsletter is used only to distribute information about the group. Please use the ONLINE DISCUSSION FORUM on the site for GIS/Archaeology discussions.

(1) Deadline for paper submissions for the 2001 ESRI User Conference — Nov. 3, 2000

---

#### General User Conference Information

<http://www.esri.com/events/uc/index.html>

#### Abstract Submission form:

[http://gis.esri.com/uc2001/papers/abstract\\_form.cfm](http://gis.esri.com/uc2001/papers/abstract_form.cfm)

The 2nd Annual ESRI Archaeology User Group Meeting will be held during the ESRI User Conference in San Diego. The time for the meeting has yet to be determined. Several short presentations will shown, followed by a general discussion. If you would like to make a short presentation at the meeting contact Bob Booth at: bbooth@esri.com.

For information about the first meeting, see:

<http://www.esri.com/industries/archaeology/2000AIGNotes.htm>

---

(2) ESRI Archaeology Web Site Updated.

---

The website for ESRI Archaeology users has been updated to include links to the full text of papers on Archaeology and GIS presented at recent ESRI User Conferences. It also provides links to example applications, tools & utilities, other sites of interest, and a peer-to-peer discussion forum. The site can be found at:

[<http://www.esri.com/industries/archaeology/>](http://www.esri.com/industries/archaeology/)

Users are encouraged to contribute user stories, tools, tips, tricks, site links and other items to share with others. To submit contact Bob Booth at:  
bbooth@esri.com

---

### (3) Archaeology Interest Group publication #1 status report

---

The deadline for the first ESRI archaeology publication has passed.

We have received a nice variety of papers, with a very high level of quality. This will be a very useful publication for archaeologists who are using GIS in their work, and the research and CRM applications are extremely interesting in themselves.

Submissions are now open for the next issue. Guidelines for submissions:

Contributions should be between 1000 and 2000 words in length and include three but no more than four figures (photos, charts, drawings, and maps are all considered figures, tables embedded in the text are not).

At least one of the illustrations must be a map produced with GIS. The articles should deal with what was accomplished or discovered by the use of GIS, with emphasis on any contributions to the current state of archaeological knowledge or theory. The use of color figures is encouraged. Each figure must have a caption and be described in the text. Figures must be at least 300dpi, as they will be printed on high quality paper. Format will be that used by the Society for American Archaeology. Articles that do not meet these criteria will be considered on a case-by-case basis.

To submit a paper contact Doug Comer at [dcomer@culturalsite.org](mailto:dcomer@culturalsite.org)  
<<mailto:dcomer@culturalsite.org>>

Any questions about the above should be emailed to Doug Comer.
