- Automate work orders.
- Improve efficiency of mobile personnel.
- Experience lower total cost of ownership over life of project.
- Achieve faster return on investment.

Key Product Features

- Sunlight readable displays
- Durable, rugged design from the inside out
- Large storage capacity
- Flexible user interfaces
- Adaptable docking solutions—vehicle, office, and warehouse

The Xplore and ESRI Solution

Using ESRI® ArcPad®, ArcView®, or ArcEditor™ on an Xplore Rugged Tablet PC, you have a mobile geographic information system (GIS) that provides access to your enterprise data at any time and in all conditions. This powerful solution from ESRI and Xplore is designed to ensure that the benefits of a mobile GIS work flow are a reality throughout your organization.

Bundled solutions feature rugged mobile computing with ArcPad, ArcView, or ArcEditor on Xplore Technologies' iX104C2 preinstalled with Windows XP Tablet PC Edition.

Xplore and ESRI Bundled Offer

ESRI and Xplore Technologies have streamlined the process of mobile GIS by providing the powerful tools required for today's demanding tasks. This partnership includes the integration of GIS software, rugged Tablet PCs, and global positioning system (GPS) technology.

The rugged iX104C2™ from Xplore Technologies® preinstalled with Microsoft® Windows® XP Tablet PC Edition is proven to work in demanding environments.

Take Advantage
