Fall 2010

MANAGER'S CORNER

- Making the Leap (easier)**
 Support from online communities smooths move from ArcIMS to ArcGIS Server [arcims2arcgisserver](#)
- Is Special Data Driving Your Fire Engine?**
 Finding, understanding, maintaining, and mapping special public safety data [datasources2](#)

DEVELOPER'S CORNER

- From Design to Deployment**
 ArcGIS 10 apps in the cloud [cloud](#)

EDUCATION

- GIScience Grand Challenges**
 How can research and technology address big-picture problems? [geochallenges](#)
- Space-Time Integration in GIS and GIScience**
[aagsymposium.](#)

SOFTWARE AND DATA

- Business Plan in Your Hand**
 Free BAO for iOS app accesses demographic reports and maps anywhere [baoios](#)
- Answering Real-World Questions** [3danalysis](#)
 Using 3D volumetric analysis techniques in ArcGIS 10
- Assessing the Accuracy of Small Area Forecasts** [groundtruth](#)
 Ground truth project validates housing data with ArcGIS

HANDS ON

- Troubleshoot Joins**
 ArcGIS 10 tool identifies join errors beforehand [joininvalidate](#)
- 10 Ways ArcGIS 10 Improves Productivity** [10productivity](#)
- Make Numeric Labels More Readable**
 Using table number field formatting is a quick solution [addcommatip](#)

FEATURES

- Valuing Mitigation Strategies** [coast](#)
 A GIS-based approach for climate adaptation analysis
- Simplifying Situational Awareness**
 Using ArcGIS Mobile to coordinate oil spill response and survey activities [pelicanrescue](#)
- GIS-ing Flood Data**
 Making valuable information in paper studies accessible [flood](#)

USER

- Taking Geography to the Next Level** [uc](#)
- Your Questions** [ucqanda](#)
 Esri's answers on trends and technology
- "Unconference" Brings Managers Together**
 Concerns drive agenda at inaugural event [unconference](#)
- The Best of Both Worlds**
 Conference for the GIS education community [educ](#)

FOCUS

Renewable Energy

- Describing, Understanding, and Acting** [sustainability](#)
 Mapping a better future
- Is Renewable Doable?** [renewable](#)
 Atlas shows energy opportunities at local level
- Locating Sites for Photovoltaic Solar Panels**
 Pilot study uses DEM derived from LiDAR [solarsiting](#)

SPECIAL SECTION

Food Deserts

- Mapping Nutritional Terrain**
 Identifying food deserts in Lansing, Michigan [fooddesert](#)
- Exploring Food Environments** [fooddataset](#)
 Assessing access to nutritious food

END NOTES

[jsaonromero](#)

- Sharing an Amazing Journey**
 Web app chronicles Mt. Everest ascent in near real time

BOOKSHELF

- GIS Bookshelf** [gisbookshelf](#)
- Reimagining Maps**
 Seminal work on cartographic design reissued [lookofmaps](#)
