A special offer of a Ricoh G700SE Camera with GPS-Photo Link: GIS Pro Series Software for US customers only.

Item 101533—Ricoh G700SE Camera with Integrated Wi-Fi and Bluetooth® and GPS-Photo Link: GIS Pro Series Software Package

Unit Price: \$1,355

Perfect for connecting to Bluetooth or Wi-Fi-enabled, high-accuracy GPS systems such as Trimble's GeoXM, GeoXT, GeoXH, ProXB, ProXT, or ProXH. This solution includes the Ricoh G700SE Camera with Li-Ion battery plus wall charger and the GPS-Photo Link: GIS Pro Series Software with ArcMap™ Plug-in. The bundle also includes a 4 GB High-Speed SD memory card and camera bag.

Item 101534—Ricoh G700SE Camera with Compass/GPS Module, Integrated Wi-Fi and Bluetooth and GPS-Photo Link: GIS Pro Series Software Package

Unit Price: \$1,799

The GP-1 module affixes to the side of the G700SE to provide a total geoinaging solution. The SiRF IV technology provides a typical accuracy of 5 meters and fast-fix times. Track logs are recorded at user-defined intervals to the camera's SD card. The GP-1 unit also includes a three-axis compass to provide azimuth (direction).

GPS-Photo Link: GIS Pro Series is a single user license. User must register software to receive an unlock code to complete installation. The license may be transferred among computers but will not run on more than one computer at a time.

ESRI QUOTATION TERMS AND CONDITIONS

These prices and terms are valid only for items purchased and delivered within the United States excluding Guam, Puerto Rico, and the Virgin Islands.

This quotation information is proprietary and may not be copied or released other than for the express purpose of system selection and purchase. This information may not be given to outside parties or used for any other purpose without written consent from Esri.

ORDER PROCESS

The order process is initiated when Esri receives an original purchase order or some form of advance payment. Several additional documents (e.g., credit application, if not using credit card, and tax exemption certificate) are required to complete the order.

IMPORTANT! Collectively, these documents contain the authorizations and information necessary to ship proper versions of the software on the correct media. Please return them promptly to avoid unnecessary delays in shipping. Please return all documents by mail or express courier or as otherwise directed.

Please show the following remittance address on your purchase order:

Esri, File #54630, Los Angeles, CA 90074-4630

DELIVERY

FOB ORIGIN

Software: Allow 30 days from Esri's receipt of purchase order, signed software license agreement(s), and other documents, as required. Esri software license agreements may be accessed at esri.com/legal.

Hardware: Manufacturer's terms apply. Lead times depend on make/models purchased.

Standard delivery method is ground or two-day air for software and surface carrier for hardware. Actual delivery method may vary depending on weight. Other service is available for an additional fee (e.g., overnight delivery).

PAYMENT TERMS

Net 30 days, on approved credit.

WARRANTY

Warranty and service are provided by manufacturer(s).

TAXES

Prices quoted do not include applicable sales or use taxes unless so stated. Esri reserves the right to collect sales tax assessed by states as required by law. Esri will add state sales tax to the invoice unless Esri is shown proof with the order that your organization is tax exempt or pays state tax directly.

Esri collects and pays sales tax in Alabama, Arizona, California, Colorado, Connecticut, Florida, Georgia, Hawaii, Illinois, Indiana, Kansas, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, and Wisconsin. In preparing your budget, please allow for applicable sales tax. Esri reserves the right to collect sales tax assessed by additional states as required by law.

PRODUCT INFORMATION

Teach your photos their X, Y, Zs!

Ricoh G700SE Digital Camera and GPS-Photo Link Software Bundle

Geolocate your photos with the Ricoh G700SE digital camera with onboard Bluetooth and Wi-Fi capabilities to accept NMEA GPS information as well as wirelessly send your images to any enabled device. Whether you use your own Bluetooth enabled GPS or the optional GP-1 attached GPS device, you can map your photos by running GPS-Photo Link. GPS-Photo Link software has specific functionality to capitalize on the Ricoh camera's features. The software watermarks and maps photos and creates reports in a variety of formats including HTML, Word, and PDF. A special ArcGIS® plug-in allows users to process photos from within ArcGIS applications—there is no need to open up a separate program. *The software can also output Esri ArcSDE® enterprise geodatabases, personal and file geodatabases, and shapefiles.*

Features and Benefits **Standard Features**

Ricoh Caplio G700SE digital camera

- Rugged, compact, waterproof, and chemical and shock resistant.
- 12.1 megapixels and 5x optical zoom; 4x digital zoom.
- Onboard Bluetooth and Wi-Fi for sending pictures to devices or accepting NMEA GPS data.
- The G700SE camera can store 20 different memos or attribute field notes for each picture taken.
- Camera utilizes a user-configurable data dictionary for tagging pictures with workflow-related information. This 'meta-data' is accessible via the GIS attributes table for real-time searches or database integration.
- Secure photos through encryption and write-once SD cards.
- Link AVI movies taken with the Ricoh camera.

GPS-Photo Link software brings all the information together into ArcView®, HTML, Word, or PDF.

- ArcGIS plug-in runs GPS-Photo Link from the ArcGIS application with the press of one button!
- Create Esri *ArcSDE enterprise geodatabases, personal and file geodatabases, and shapefiles* showing the location of each photo; automatically load the new layer into ArcView.
- Esri ArcView extension for hot linking shapefiles to images allows you to click on the feature point and the georeferenced photo will be displayed! Hover over a point, and a thumbnail of the photo pops up! *Display Ricoh Camera Memos along with the photo when hovering over a feature point in ArcGIS.*
- Produce a layer containing Field of View wedges showing the camera's field of view.
- Create offset locations using the compass and laser rangefinder information (if available).
- Generate customizable reports in HTML, Word, and PDF files including watermarked photos and detailed maps showing the photo's location using Google Maps, MapBlast, TIGER, USGS aerial photos, or USGS topo maps. HTML output includes an overview map and displays a selectable list of thumbnails for all photos.

Esri
 380 New York Street
 Redlands, California 92373-8100
 Phone: 909-793-2853, ext. 1-4441
 Fax: 909-307-3046

- Create watermarked pictures allowing the user to imprint key information on the photos such as logos, lat/lon, datum, direction, name, date, time, elevation and comments.
- Live map preview allows photo location editing.
- Batch rename files based on attributes.
- Draw on photos and add supplemental text.

GP-1 attached GPS device allows for attached gathering of GPS locations and automatically attaches that location information within the image.

- SiRF Star IV GPS
- 48 channel all in view tracking
- 5 meters, 2D RMS
- Rugged design
- Designed to be attached permanently to Ricoh G700SE camera
- 3-axis compass

Standard Accessories

- Li-Ion battery pack for G700SE
- Li-Ion battery wall charger
- USB Cable
- Neck Strap
- Instruction Manuals
