## GeoCollector™ Series

**GeoCollector** is an end-to-end field data collection solution that merges ESRI® mobile geographic information system (GIS) technology with Trimble® professional-grade global positioning system (GPS) hardware. With GeoCollector, you can increase the accuracy of your data collection, resulting ultimately in a superior enterprise GIS.

Four essential components are needed to fully take advantage of mobile GIS: a rugged handheld computer, GIS software for field mapping applications, a GPS receiver with professional-grade accuracy, and complete hardware and software technical support from the provider of the mobile GIS solution.\* GeoCollector integrates all of these to form a complete mobile GIS solution tailored to those who need the added accuracy of a professional-grade GPS.

The GeoCollector solution, exclusively from ESRI, is designed to ensure that the benefits of a mobile GIS workflow are a reality throughout your organization.

### **GeoCollector Rugged Handheld—The Industry Standard**

Trimble's GeoExplorer 2008 series comes with a choice of 1–3meter, submeter, or subfoot accuracies. The subfoot variant is capable of achieving decimeter to subfoot accuracy with postprocessing or in real time with suppliers of VRS or dual frequency base stations, which may require subscription fees to such providers. All three feature a 520 MHz XScale processor running the latest Microsoft® Windows Mobile™ 6.0 software, VGA display (480 x 640) sunlight-readable color touch screen, internal rechargeable battery for all-day use, 1 GB nonvolatile Flash data storage, Bluetooth 1.2 wireless technology, 802.11b/g wireless LAN connectivity, and sealed SD/SDHC card slot.

### **GeoCollector Field Software—GPS Field Data Collection**

Each GeoCollector system comes preloaded with ESRI's ArcPad®, delivering hassle-free field collection and seamless data integration with ArcGIS® products by using the same data formats, symbology, and project structure in the field and in the office. The Trimble GPSCorrect™ extension for ArcPad, also preloaded, collects and manages GPS data to enable improved GIS data accuracy through differential correction with Trimble GPS Analyst™ extension for ESRI ArcGIS Desktop software.

### **GeoCollector Desktop Software—GPS Data Processing Hub**

Although data can be used directly from the field, Trimble's GPS Analyst extension for ArcGIS Desktop completes the end-to-end GeoCollector workflow. GPS Analyst enables automated download and postprocessing of your GeoCollector data directly in the ArcGIS Desktop environment, and by differentially correcting downloaded data, GPS Analyst ensures the accuracy of your GIS. GPS Analyst is a key component of the GeoCollector system and must be purchased for each ArcGIS workstation or notebook through which GeoCollector data is to be downloaded and processed.

### **GeoCollector 1–3meter**

The GeoCollector 1–3meter is an affordable, all-in-one solution for taking your GIS to the field. With 1–3meter GPS accuracy and the latest Microsoft Windows Mobile 6.0 software, the GeoCollector 1–3meter is convenient and versatile—perfect for mobile GIS applications.

### **GeoCollector Submeter**

The GeoCollector submeter is the essential tool for maintaining your GIS. The GeoCollector submeter is optimized to provide reliable, high-accuracy GIS data. It's ideal for use by utility companies, local government organizations, federal agencies, or anyone managing assets or mapping critical infrastructure that needs accurate, up-to-date data.

### **GeoCollector Subfoot**

The GeoCollector subfoot is the top-of-the-line solution for high-accuracy GIS data collection. Engineered with H-Star™ technology, the GeoCollector Subfoot delivers the GPS accuracy required by electric and gas utilities, water and wastewater services, land reform projects, and other applications where accurate positioning is crucial. H-Star technology can provide subfoot (30 cm) accuracy in real time or after postprocessing with GPS Analyst for ArcGIS Desktop, and decimeter (10 cm/4 in) accuracy with the optional Zephyr™ antenna. To obtain decimeter to subfoot accuracy in real time, you can connect to the Internet using a Bluetooth-enabled cellular phone to access corrections from a dual-frequency VRS network or base station. Alternatively, you can receive real-time corrections from a dual-frequency base station via an external radio. Real time may require paying fees to providers of VRS or dual-frequency base station suppliers.

Trimble's H-Star technology uses revolutionary processing techniques to achieve subfoot accuracy. Achieving these results requires either one dual-frequency base station within 80 km or at least three dual-frequency base stations within 200 km of where your fieldwork was performed. To verify that you have the necessary base station configuration in your area, please refer to [www.esri.com/trimblehstarmap](http://www.esri.com/trimblehstarmap). For more information, please contact [dgarner@esri.com](mailto:dgarner@esri.com) or [ntomlinson@esri.com](mailto:ntomlinson@esri.com).

### **Trimble's GPS Analyst Extension for ArcGIS**

Trimble's GPS Analyst extension for ArcGIS Desktop is the hub for all your GPS data processing needs. GPS Analyst manages the postprocessed differential correction of your GPS data, providing simple, easy-to-use tools to analyze and validate the accuracy of your GPS data. GPS Analyst supports one or many devices, meaning that your organization can centrally manage all GPS data processing needs.

## 2 LIMITED WARRANTY FOR TRIMBLE PRODUCT SOFTWARE.

2.1 Limited Warranty. Trimble warrants that the Software, exclusive of the Microsoft Software, will perform substantially in accordance with the accompanying written materials for a period of twelve (12) months from the date of purchase. This limited warranty gives you specific legal rights; you may have others, which vary from state/jurisdiction to state/jurisdiction. The above limited warranty does not apply to Fixes, Minor Updates, or Major Upgrades of the Software after expiration of the twelve (12) month limited warranty period, all of which are provided "AS IS" and without warranty unless otherwise specified in writing by Trimble. Because the Software is inherently complex and may not be completely free of nonconformities, defects or errors, you are advised to verify your work. Trimble does not warrant that the Software will operate error free or uninterrupted, will meet your needs or expectations, or that all nonconformities can or will be corrected.

2.2 Software Fixes. During the limited warranty period described in section 2.1 above, you will be entitled to receive such Fixes to the Product Software that Trimble releases and makes commercially available and for which it does not charge separately, subject to the procedures for delivery to purchasers of Trimble products generally. If you have purchased the Product from an authorized Trimble dealer rather than from Trimble directly, Trimble may, at its option, forward the software Fix to the Trimble dealer for final distribution to you. Minor Updates, Major Upgrades, new products, or substantially new software releases, as identified by Trimble, are expressly excluded from this update process and limited warranty. Receipt of Software Fixes or other enhancements shall not serve to extend the limited warranty period. For purposes of this warranty the following definitions shall apply: (1) "Fix(es)" means an error correction or other update created to fix a previous software version that does not substantially conform to its Trimble specifications; (2) "Minor Update" occurs when enhancements are made to current features in a software program; and (3) "Major Upgrade" occurs when significant new features are added to software, or when a new product containing new features replaces the further development of a current product line. Trimble reserves the right to determine, in its sole discretion, what constitutes a Fix, Minor Update, or Major Upgrade.

2.3 Customer Remedies. Trimble's and its suppliers' entire liability, and your sole remedy, with respect to the Software shall be either, at Trimble's option, (a) repair or replacement of the Software, or (b) return of the license fee paid for any Software that does not meet Trimble's limited warranty. This limited warranty is void if failure of the Software has resulted from (1) accident, misuse, abuse, or misapplication; (2) alteration or modification of the Software without Trimble's authorization; (3) interaction with software or hardware not supplied or supported by Trimble; (4) your improper, inadequate or unauthorized installation, maintenance or storage; or (5) if you violate the terms of this EULA. Any replacement Software will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer.

*2.5 PLEASE NOTE: THE FOREGOING TRIMBLE LIMITED WARRANTY PROVISIONS MAY NOT APPLY TO SOFTWARE PRODUCT LICENSES PURCHASED IN THOSE JURISDICTIONS (SUCH AS COUNTRIES OF THE EUROPEAN UNION) IN WHICH PRODUCT WARRANTIES ARE OBTAINED FROM THE LOCAL DISTRIBUTOR. IN SUCH CASES, PLEASE CONTACT YOUR TRIMBLE DEALER FOR APPLICABLE WARRANTY INFORMATION.*

### 3 TRIMBLE LIMITATION OF LIABILITY.

3.1 LIMITATION OF LIABILITY. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL TRIMBLE OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OR INABILITY TO USE THE SOFTWARE, OR THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, EVEN IF TRIMBLE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY EXCLUSIVE REMEDY PROVIDED IN THIS EULA. IN NO EVENT SHALL THE TOTAL CUMULATIVE LIABILITY OF TRIMBLE AND ITS SUPPLIERS IN CONNECTION WITH THIS EULA OR THE SOFTWARE, WHETHER BASED ON CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, EXCEED THE ACTUAL AMOUNT PAID TO TRIMBLE FOR THE SOFTWARE LICENSE GIVING RISE TO THE CLAIM. BECAUSE SOME STATES AND JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.
