

# ArcView 9.1 Evaluation Quick Install Guide

1. Insert CD and Select “Install ArcView 9.1 and ArcGIS Extensions Evaluation.”

Make sure all other applications are closed.

2. Select “Install ArcView 9.1 and “ArcGIS Extensions Evaluation.”

3. Click “Next.”

4. Read and accept the license.

5. Select “Complete” to install the Extensions. Click “Next.”

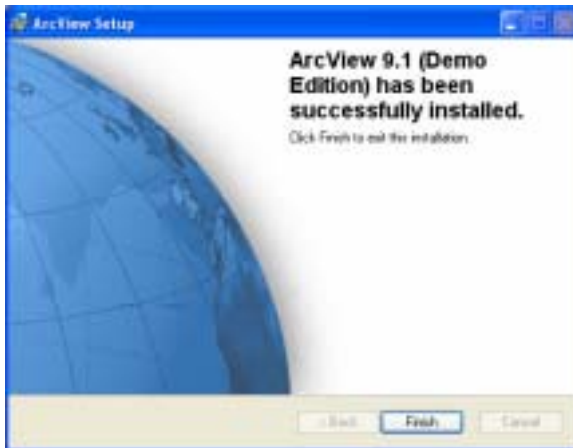

6. Click “Next” to accept default location.

7. Click “Next” to begin installation.

8. Click “Finish” after receiving confirmation that ArcView has been successfully installed.

9. Do not install tutorial data at this stage. Select “Cancel.”

10. After selecting “Cancel,” Select “Exit” from the install wizard and exit out of “CD A” prior to removing the CD.

Remove “CD A” and insert “CD B.” You will now install the ArcGIS Tutorial Data.

11. Select “Launch the ArcGIS Tutorial Data Installer”

12. Follow the onscreen instructions to complete install.

13. After completing install, exit out of the install wizard, and select “EXIT” from CD B.

Remove CD B from your CD Drive and restart your computer.

14. After restart, launch the ArcGIS Desktop Administrator and select “Register Single Use and Extensions.”

Your registration code is located on the inside of the Evaluation CD cover.
