Seminar
Amsterdam**

Current State in GIS Systems: Lack of Reliable Data on Political Risks

But: Hazards from Political Instabilities are Increasing

‘The centers of conflicts are continuously growing.’ -‘We are surrounded by great Insecurities’

Nikolaus von Bomhard,
CEO of Munich Re

‘The geopolitical stress burdens the German economy’

Hans-Werner Sinn, Former President
of the IFO-Institute

Central Bank

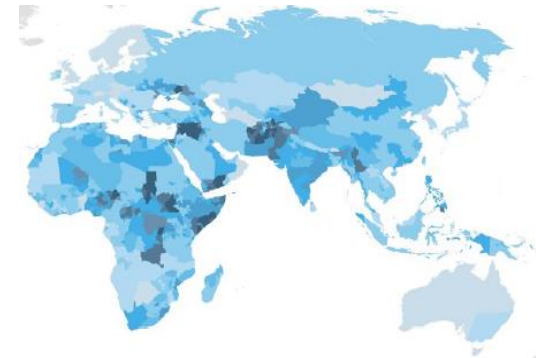

Solution: Scientific Risk Data by CONIAS

**20 Years of
Research at
Heidelberg
University**

**Analysis of
Conflict Dynamics**

**Geographical
Disaggregation**

Key Features I:

Complete Range of Political Country Risks

Demonstrations
& Riots

Terrorism

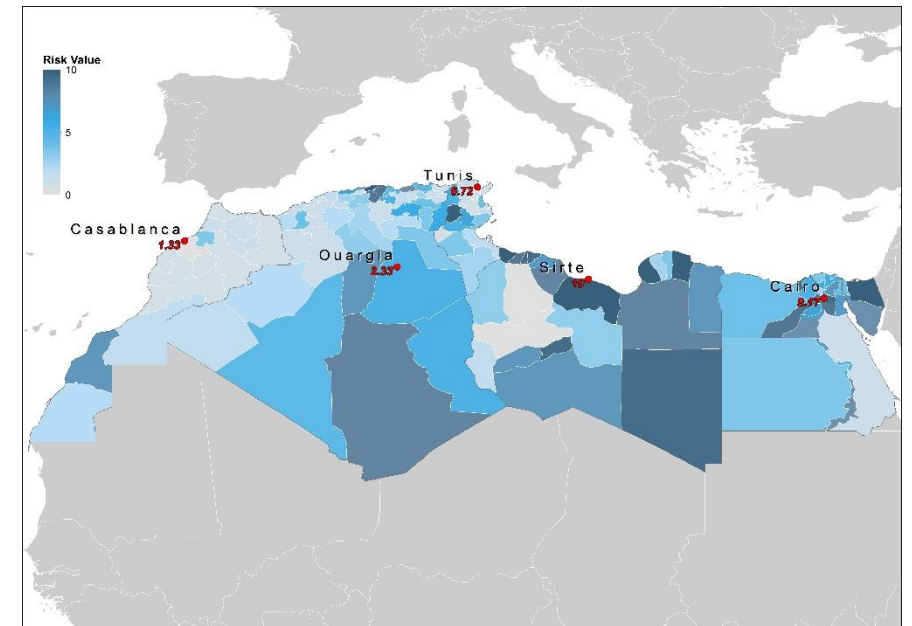

Civil Wars

Interstate
Conflicts

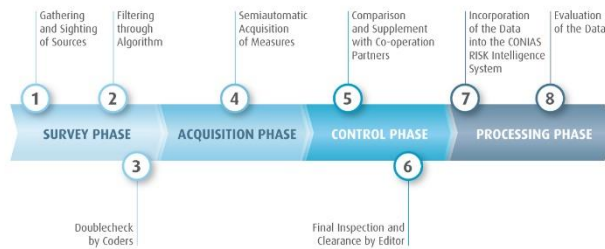

Comparability Across all Countries

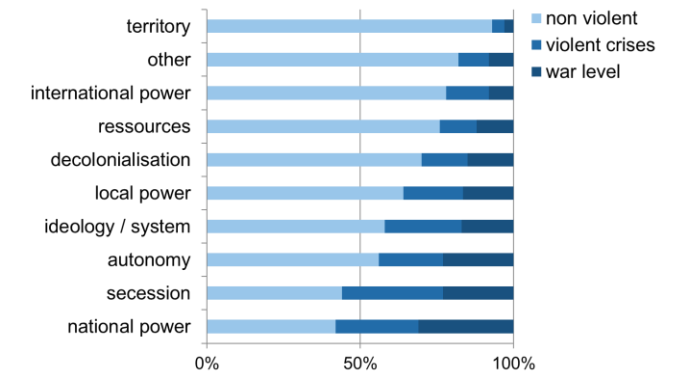

Key Features II:

High Update Frequency

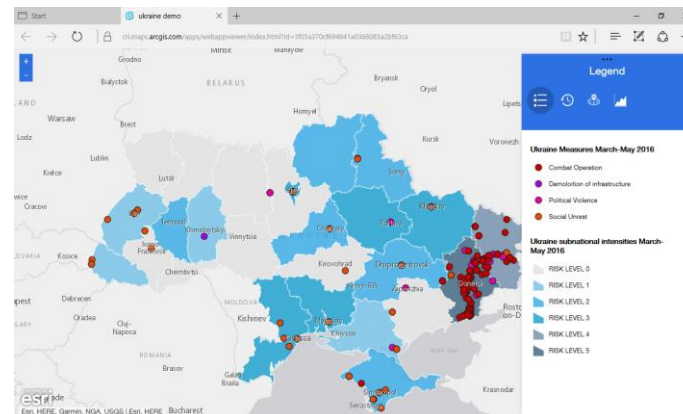

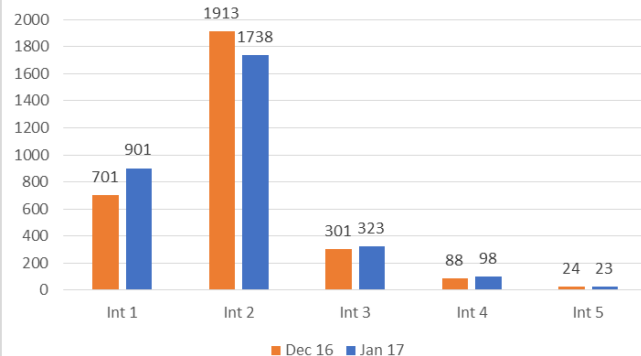

DATA PROCESSING

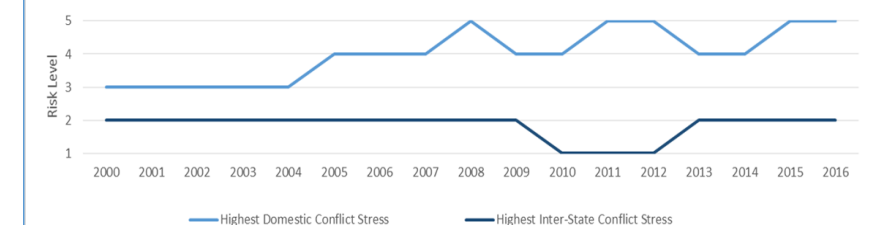

DATA COLLECTION

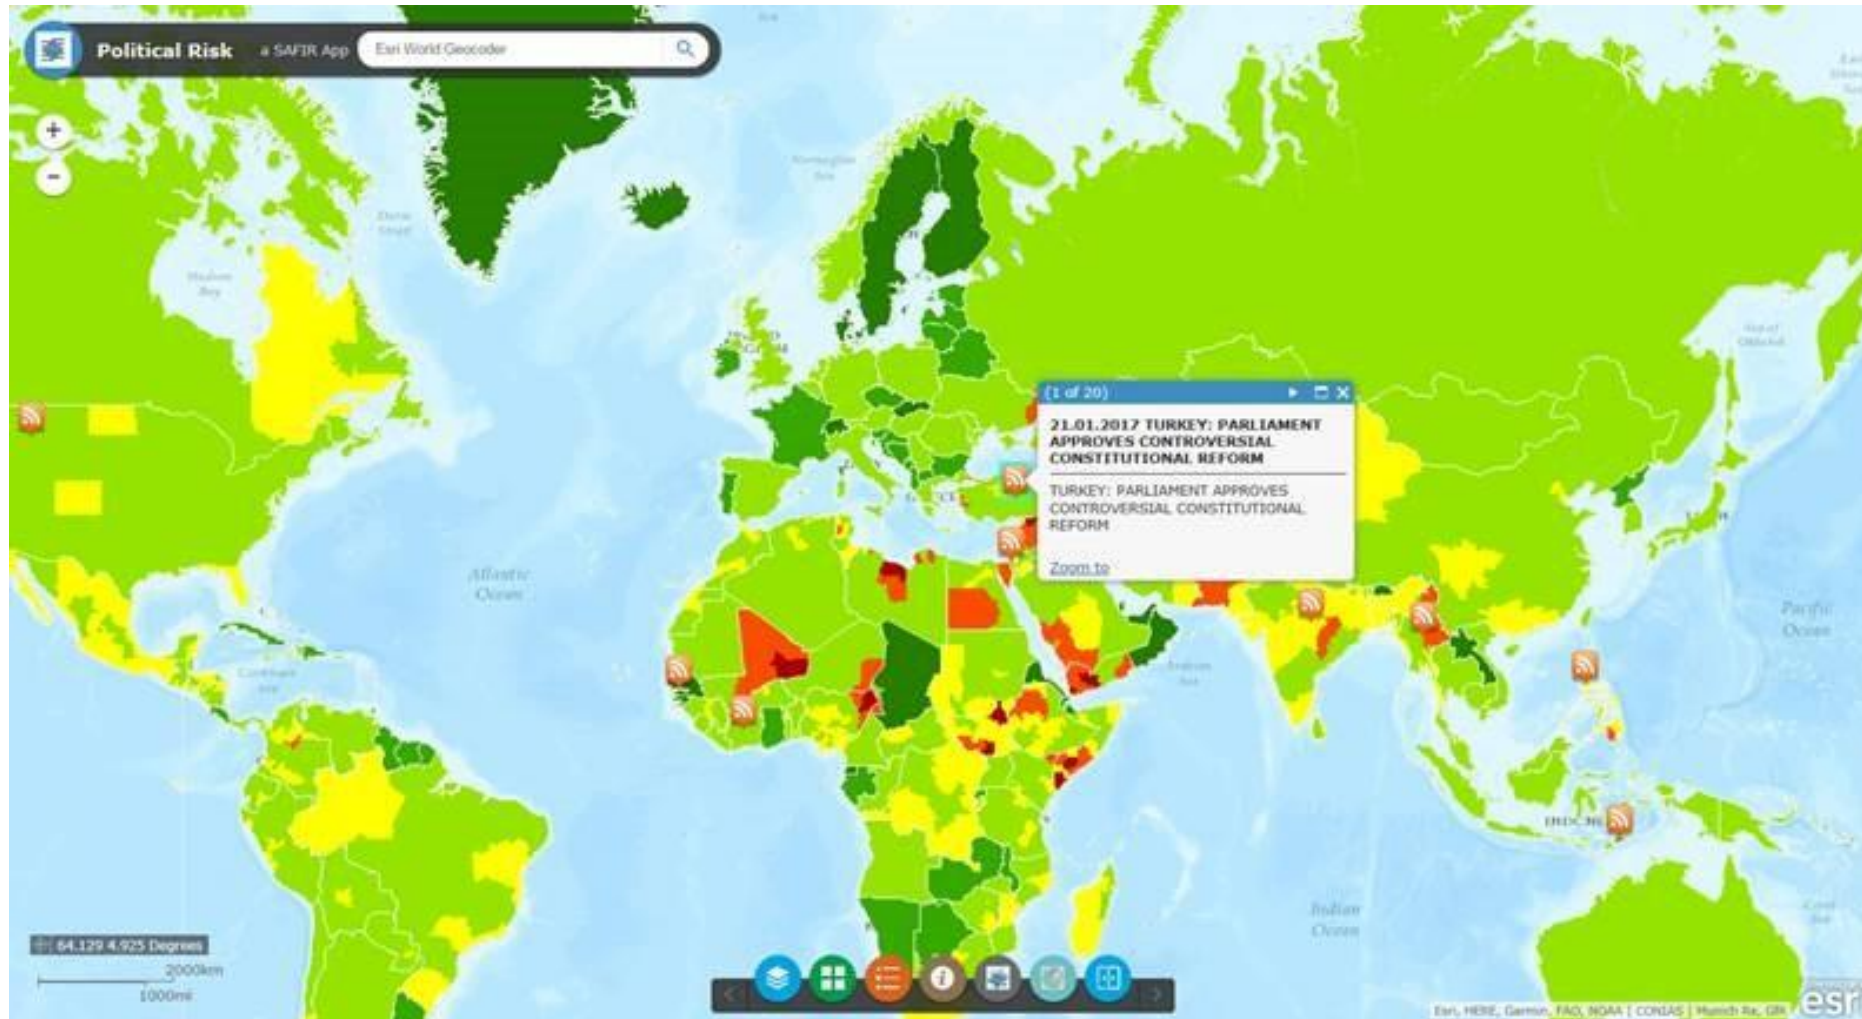

Conflict Burden of Subnational Units

Development of the Conflict Stress

Application Examples: Munich Re, Geo Risk Analyzer, CONIAS Application

Geo Risk
Analyzer
