

Manufacturing and Supply Chain Events and Activities

The Esri User Conference has many presentations and events with hundreds of topics covered. To help you find your way to the Manufacturing and Supply Chain sessions and events, we have prepared a more focused agenda.

Esri Business Summit

June 25-28 San Diego Hilton Bayfront Hotel

Who knew applying geography to business challenges could be so rewarding? The speakers and attendees of the Esri Business Summit do, and they are looking forward to sharing their stories with you.

Spend a little time with Esri staff, users and partners and see how easily you can turn place into profit, no matter your business.

Whether you are a business executive needing better insight into your decisions, or a manager in charge of making geo tick - the Business Summit is for you. Throughout the two days of the conference you will take part in high level discussions with others who have benefitted from location technology, and get an inside view on the latest developments that can benefit you.

GIS has moved from the analyst's desktop into every corner of the commercial enterprise. As one of the fastest-growing parts of Esri's business, the commercial sector continues to redefine how location information, knowledge, and insight are created, shared, and applied. The Commercial Island is the place to share your experience and needs, discover new ways to put the ArcGIS platform to work, and build long-lasting relationships with others in this fast-paced community.
