Electric/Gas Data Health Checks
Schedule a 45-minute review and analysis of your data with our utility experts. In addition to examining data accuracy, they will use ArcGIS Data Reviewer for Desktop to run diagnostics and evaluate overall data quality. If you maintain parcel data, they will also be able to assess whether or not it is ready to be loaded into the parcel fabric. To schedule an appointment at the Industry Showcase, e-mail datareviewer@esri.com with your name, organization, contact information, type of data you're bringing, and preferred date and time.
