Winter 2025	October 30, 2024	November 15, 2024

Materials for new advertisements must be submitted to Esri for review and approval. See the Advertising Policies section in this document for details. Esri's ad review process ensures that all ads are in accordance with current editorial standards and guidelines. If changes are required, all final materials will need to be resubmitted.

Make your space reservations today at ads@esri.com.

ArcNews + ArcUser

Mechanical Requirements (print ads)

Electronic/Digital Media

- Files are accepted via email.
- Please contact the advertising coordinator at ads@esri.com for instructions on how to send large ad files.
- To ensure quality, your ad should be accompanied by a color Matchprint proof.
- A secure repository for large files is available upon request by emailing ads@esri.com.

Graphic File Format

High-resolution PDF and EPS files are preferred, with all fonts and links embedded. High-resolution TIF files are also accepted. (For any other format, contact the Esri publications advertising coordinator prior to submission.)

Image Files

- All files must be created at 100 percent size and at 300 dpi or better.
- Ads must be saved using only CMYK color values. Do not include any spot or solid colors.
- Send files in the correct dimensions. No need for any printer marks—but if included, please keep them outside the bleed area.

Printing Process

- ArcNews and ArcUser magazines are printed on a heatset web press and designed in Adobe InDesign CC 2024 (Macintosh).
- A keyline will be placed around ads at the publisher's discretion.

Advertising Sales and Information

Please address all questions concerning mechanical requirements, material deadlines, and shipping to the following:

Advertising Policies

Advertising Agreement

Advertising is accepted subject to the terms and conditions that are stated in the agreement for advertising in Esri news publications and can be found at esri.com/arcnews and esri.com/arcuser on the Advertising tab.

Review/Approval

All advertising is subject to publisher approval. Esri's ad review process ensures that all ads comply with current editorial standards and guidelines.

All organizations must be preapproved before they may advertise in any Esri publication. Prospective advertisers should forward information about their company and the products or services that they intend to promote to ads@esri.com.

Esri Trademark and Logo Guidelines

Advertisers in Esri publications are authorized to use certain emblems and other trademarks and service marks owned by Esri. Please contact the Advertising Department at ads@esri.com for the Esri trademark and logo guidelines when designing ads for placement in Esri publications. Utilizing those guidelines will ensure that you are using Esri trademarks, service marks, logos, and emblems legally, thereby streamlining the ad approval process. A sample layout showing proper trademark usage is available on the Partners Only website at partnerportal.esri.com or upon request.

Use only the emblems and/or software logos you have been authorized to use just once in each advertisement. Do not alter them in any way.

Your company's word and/or design marks should appear as big as or larger than the Esri authorized emblem and/or software logos.

The trademark symbol only needs to be used once, after the first appropriate use of the word mark, in a document. At the end of a document (at the bottom of the page, in type smaller than other text), add an attribution for any Esri trademark used. An example follows: Esri trademarks provided under license from Esri.

Please direct any questions to ads@esri.com.

Information in this document is subject to change without notice.
