

## 2014 Esri North American Rail Summit Agenda

The 2014 North American GIS Rail Summit will be held October 20-21, 2014, at the R.J. Corman headquarters in Nicholasville, KY. This two-day meeting will bring together North America's Class I railroads and the industry's GIS professionals to discuss and share how they are using GIS to transform rail in areas such as planning, operations, and maintenance. Learn from these leading experts the GIS applications for rights-of-way management, data models, safety improvement, and more. Join us in exploring the future of rail through geography. The agenda is listed below\*:

Monday, October 20		
12:00 PM	Lunch	
12:30 PM	"Welcome" and "GIS at RJ Corman"	RJ Corman
1:30 PM	BNSF - "Configuration of Wayside Sites for PTC"	Devin Wagner
2:00 PM	CSX - "Rail Corridor Risk Assessment" / "AAR GIS Committee Plans"	Abby Clark
3:00 PM	Break	
3:15 PM	Esri - "IT Trends & GIS Enterprise Architecture"	Rodney Conger
4:15 PM	Bartlett & West - "Construction Observation Efficiencies through Mobile Applications"	Leah Twombly
6:00 PM	Dinner	
Tuesday, October 21		
8:30 AM	Union Pacific - "UP GIS: Helping to Drive Business Yesterday, Today and Tomorrow"	Michelle Gartner
9:15 AM	Norfolk Southern - "Spatial Data Management for PTC"	Glynis Langford
10:00 AM	Break	
10:15 AM	Federal Railroad Administration - "FRA Rail Network Conflation Status"	Raquel Hunt
11:00 AM	OSIsoft - "Real-Time Asset Performance for Rail - Combining Time and Space"	Matt Miller
11:45 AM	Lunch	
1:00 PM	CN - "Applying Geomatics to CN Enterprise Projects: GIS-based Innovations for tomorrow's Rail Industry"	Guylaine Prévost
1:45 PM	Trimble - "Field Crews and their role in Change Management"	Dan Colbert
2:30 PM	NAPSG - "Building Public/Private Geospatial Collaboration to Enhance Public Safety"	Rand Napoli
3:30 PM	NICE - "Security and Incident Management Systems for Rail"	Assaf Kalderon
