

## ArcGIS Workflow Manager

The 2022 [Esri User Conference](#) returns to San Diego! We have prepared a focused agenda for [ArcGIS Workflow Manager](#) to help you navigate the hundreds of sessions and activities being offered. Learn about the latest capabilities and take technical deep dives in various sessions as listed below.

ArcGIS Workflow Manager is a scalable workflow management system that optimizes GIS and non-GIS operations by managing, in real time, people, processes, and products in an organization's enterprise environment. Workflow Manager's service-driven architecture enables orchestrating seamless end-to-end workflows across the ArcGIS ecosystem, including web, desktop, and mobile.
