Change Notes

Market Data are now projections for 2025 (previously 2023). Unemployed Population is shown for 2024 (previously 2022). Utilization of updated input data from official statistics has led to deviations in Households by Type. The Consumer Spending projection in national currency for 2025 shows variations compared to 2023 with shifts within categories due to revision of expenditure data. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

No changes were made to these settlement points since the last MBR release.

Other Data Notes
