Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2025 (previously 2023). Population projections at the national level declined by 3,28% compared to former estimates; this difference is attributed to refugee movements out of the country during the civil war. The Purchasing Power projection in national currency for 2025 shows a significant upward trend due to extremely high inflation.

No changes were made to these settlement points since the last MBR release.

Other Data Notes

None.
