Change Notes

Market Data are now projections for 2026 (previously 2024). The Consumer Spending projection in national currency for 2026 shows variations compared to 2024 with shifts within categories due to new data from official statistics. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

There is no coverage in this for Settlements of Samaria and Judea. There is no official data available for the six Territories without Jurisdiction or Industrial Local Councils.
