Lebanon

Release: October 2026

Data Source

Data: © Michael Bauer Research GmbH 2026 based on © Central Administration of Statistics (CAS), UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2026.

Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Estimated Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: https://ghslsys.jrc.ec.europa.eu.

None.

Change Notes

Market Data are now projections for 2026 (previously 2024). Unemployed Population data is shown for 2025 (previously 2023). Population projections at the national level declined by 0.01% compared to former estimates; this difference is attributed to updates to United Nations data that is based on input data from the Central Administration of Statistics of Lebanon. The use of updated input data from official statistics has led to deviations in Age Groups. The Purchasing Power and Consumer Spending projections in national currency for 2026 show a downward trend due to a revision of economic data.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

Age and Gender are reported separately, not in combination. Education data excludes domestic workers.
