Change Notes

Market Data are now projections for 2026 (previously 2024). Population projections at the national level declined by 4.83% compared to former estimates; this difference is attributed to the use of the Census 2024 data from the Central Statistical Organization of Myanmar. The use of Census 2024 data from official statistics has led to deviations in Education data. The Purchasing Power projection in national currency for 2026 shows a significant upward trend due to high inflation.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

Age and Gender, Education, and Marital Status are based on the distribution of the respective Pyi ne myar taing.
