Malaysia

Release: October 2026

Data Source

Data: © Michael Bauer Research GmbH 2026 based on © Department of Statistics Malaysia (DOSM), UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2026. Data Source for Digital Boundaries: 2026 Michael Bauer Research GmbH based on © Jabatan Alam Sekitar.

Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Estimated Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: https://ghslsys.jrc.ec.europa.eu.

Release: October 2026

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2026 (previously 2024). The Consumer Spending projection in national currency for 2026 shows variations compared to 2024 with shifts within categories due to new data from official statistics. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

For reasons of data privacy, in areas with fewer than 10 inhabitants, all data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average and all other variables are set to zero. Micro: Age and Gender are reported separately, not in combination.
