Change Notes

Market Data are now projections for 2026 (previously 2024). Population projections at the national level declined by 0.18% compared to former estimates; this difference is attributed to updates to United Nations data that is based on input data from the Philippine Statistics Authority. The Purchasing Power and Consumer Spending projections in national currency for 2026 show an upward trend due to a revision of economic data.

No changes were made to the settlement points since the last MBR Data release.
