Change Notes

Market Data are now projections for 2026 (previously 2024). The Purchasing Power projection in national currency for 2026 shows a downward trend due to a revision of economic data.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

For reasons of data privacy, in areas with fewer than 10 inhabitants, all data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average and all other variables are set to zero. Unemployed Population data is based on per capita values of the respective Baladiyyat.
