Thailand

Release: October 2026

Data Source

Data: © Michael Bauer Research GmbH 2026 based on © National Statistical Office (NSO), UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2026. Data Source for Digital Boundaries: 2026 Michael Bauer Research GmbH based on © GISTDA (Geo-Informatics and Space Technology Development Agency), Thailand.

Settlement Points: The settlement points were created by Nostra using their 2025 residential housing unit points and verified using Esri imagery and previous settlement points.

Dataset Information

Thailand	
3 Letter ISO Country code	THA
Currency	Thai baht
3 Letter Currency code	THB
Number of attributes available	121
Number of geography levels	3

Change Notes

Market Data are now projections for 2026 (previously 2024). The use of updated input data from official statistics has led to deviations in Age Groups. The Consumer Spending projection in national currency for 2026 shows variations compared to 2024 with shifts within categories due to new data from official statistics. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

The settlement points were updated with the latest Nostra residential housing unit points, this could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
