Change Notes

Market Data are now projections for 2026 (previously 2024). Population projections at the national level declined by 3.92% compared to former estimates; this difference is attributed to updates to United Nations data that is based on input data from the Directorate-General of Budget, Accounting and Statistics of Taiwan. The Purchasing Power and Consumer Spending projections in national currency for 2026 show an upward trend due to economic growth.

No changes were made to the settlement points since the last MBR Data release.

Other Data Notes

Education in New Taipei City is based on the distribution of the respective county.
