EDUC08_CY	2025 Pop 10+/Edu: Postgraduate	Education
EDUC_BASE	2025 Education Attainment Base	Education

## Attributes no longer available

None.

## Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population is shown for 2024 (previously 2023). Population projections at the national level declined by 0.45% compared to former estimates; this difference is attributed to updates to United Nations data based on input data from the National Statistic Committee of the Republic of Belarus. The use of updated input data from official statistics has led to deviations in Unemployed Population. The Purchasing Power and Consumer Spending projections in national currency for 2025 show an upward trend due to inflation and economic growth and a revision of economic data. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

## Other Data Notes

For Postal Codes, Households are based on the household size of the respective Raioni. Age, Gender, Marital Status, and Education are based on the distribution of the respective Raioni. Unemployed Population, Purchasing Power, and Consumer Spending are based on per capita values of the respective Raioni.
