EDUC04_CY	2025 Pop/Edu: Secondary Diploma	Education
EDUC05_CY	2025 Pop/Edu: Post-Secondary Degree	Education
EDUC06_CY	2025 Pop/Edu: Doctorate, Postgrad, or Equivalent	Education
EDUC07_CY	2025 Pop/Edu: Unknown	Education
EDUC_BASE	2025 Education Attainment Base	Education

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population data is shown for 2024 (previously 2023). Population projections at the national level declined by 0.20% compared to former estimates; this difference is attributed to updates to Eurostat data that is based on input data from the Hellenic Statistical Authority of Greece. The use of updated input data from official statistics has led to deviations in Unemployed Population data. The Purchasing Power and Consumer Spending projections in national currency for 2025 show an upward trend due to a revision of economic data. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups. The new local educational attainment variables provide country-specific education levels or fields; these can vary by country. The existing standardized educational attainment variables use the ISCED (International Standard Classification of Education) levels and fields. These are the same for all countries and regions and are useful for cross-country comparison.

Other Data Notes

For Postal Codes, Households are based on the household size of the respective Dimoi. Age and Gender, Households by Income Quintiles, Households by Type, Education, and Marital Status are based on the distribution of the respective Dimoi. Unemployed Population data is based on per capita values of the respective Dimoi.
