## Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population is shown for 2024 (previously 2023). Utilization of updated input data from official statistics has led to deviations in the number of Unemployed Population. The Purchasing Power projection in national currency for 2025 shows an upward trend due to inflation and economic growth and a revision of economic data. The Consumer Spending projections in national currency for 2025 shows an upward trend due to economic growth. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

## Other Data Notes

For reasons of data privacy, in areas with fewer than 10 inhabitants, all data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average and all other variables are set to zero. For Postal Codes, Households are based on the household size of the respective Seniunijos. Age, Gender, Marital Status, and Education are based on the distribution of the respective Savivaldybes. Unemployed Population is based on per capita values of the respective Savivaldybes.
