

Latvia

Release: February 2026

Data Source

Data: © Michael Bauer Research GmbH 2025 based on © Central Statistical Bureau, Eurostat.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2025. Data Source for Digital Boundaries: 2025 Michael Bauer Research GmbH based on © State Land Service, CC BY 4.0.

Settlement Points: The settlement points were created using the 2023 European Commission Global Human Settlement Layer (GHSL). More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>. The data was verified using Esri imagery and Michael Bauer Research 2022 population.

Dataset Information

Latvia	
3 Letter ISO Country code	LVA
Currency	Euro
3 Letter Currency code	EUR
Number of attributes available	132
Number of geography levels	8

Geography Levels

Esri Geography Name	Local Geography Name	Feature Count
Country	Latvija	1
NUTS 1	NUTS 1	1
NUTS 2	NUTS 2	1
NUTS 3	NUTS 3	5
Postcodes1	Postcodes1	5
Postcodes2	Postcodes2	28
Municipalities	Novadi	42
Postcodes4	Pasta Indeksi	693

HTYP06_CY	2025 One-Parent HHs w/ Resident Children <18	Households
HTYP07_CY	2025 One-Parent HHs w/ Youngest Resident Child 18+	Households
HTYP08_CY	2025 Multi-Family Households	Households

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population is shown for 2024 (previously 2023). Population projections at the national level declined by 1.12% compared to former estimates; this difference is attributed to migration movements, a factor that is also reflected in the input data. The Consumer Spending projection in national currency for 2025 shows variations compared to 2024 with shifts within categories due to new data from official statistics. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

Release: February 2026

Other Data Notes

For reasons of data privacy, in areas with fewer than 10 inhabitants, all data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average and all other variables are set to zero. For Postal Codes, Households are based on the household size of the respective Novadi. Households by Type are based on the distribution of the respective Novadi. Age, Gender, Marital Status, and Education are in some areas based on the distribution of the respective Pagasti. Unemployed Population, Purchasing Power, and Consumer Spending are in some areas based on per capita values of the respective Pagasti.
