Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population data is shown for 2024 (previously 2023). Population projections at the national level declined by 0.94% compared to former estimates; this difference is attributed to updates to United Nations data that is based on input data from the Official Government Portal of Monaco. The use of updated input data from official statistics has led to deviations in Age Group data.
