Release: February 2026

## Data Source

- Data: © Michael Bauer Research GmbH 2025 based on © National Statistics Office, Eurostat.
- Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2025.
- Settlement Points: The settlement points were created using 2023 OpenStreetMap Building Footprints, Microsoft Global ML Building Footprints, and the European Commission Global Human Settlement Layer. The buildings were constrained to exclude non-residential housing units and verified using Esri imagery and Esri Street Map Premium Layers. When necessary, multi-unit housing unit values were distributed using a top-down approach based on the Michael Bauer Research Demographic Data.

## Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population data is shown for 2024 (previously 2023). The use of updated input data from official statistics has led to deviations in Age Group data. The Consumer Spending projection in national currency for 2025 shows an upward trend due to economic growth. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

## Other Data Notes

Marital Status is based on the distribution of the respective Distretti. For Postal Codes, in some cases (e.g. Munxar, Kalkara and Zebbug (Gozo)) Market Data are based on the respective Kunsilli Lokali.
