Change Notes

Market Data are now projections for 2025 (previously 2024). Unemployed Population is shown for 2024 (previously 2023). Population projections at the national level declined by 0.32% compared to former estimates; this difference is attributed to updates to United Nations data based on input data from the Federal State Statistics Service of Russia. Utilization of updated input data from official statistics has led to deviations in the number of Unemployed Population. The Purchasing Power and Consumer Spending projections in national currency for 2025 show an upward trend due to inflation. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

Other Data Notes

For the Raioni of Chechenskaya Respublika, Yevreyskaya avtonomnaya oblast' and Respublika Ingushetiya Education is based on the distribution of the respective Federal Subjects.
