None.

Change Notes

Market Data are now projections for 2026 (previously 2024). Unemployed Population data is shown for 2025. Population projections at the national level declined by 0.98% compared to former estimates; this difference is attributed to updates to United Nations data based on input data from the Institut de la statistique de la Polynésie française. The Purchasing Power projection in national currency for 2026 shows an upward trend due to high economic growth.

No changes were made to the settlement points since the last release of French Polynesia MBR data.

Other Data Notes

None.
