MRST04_CY	2026 Marital Status: Widowed	Marital Status
UNEMP_CY	2025 Unemployed Population	Jobs

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2026 (previously 2024). Unemployed Population data is shown for 2025. Population projections at the national level declined by 1.53% compared to former estimates; this difference is attributed to the use of the Census 2024 data from the Instituto Nacional de Estadísticas of Chile. The use of Census 2024 data from official statistics has led to deviations in Households by Type, and Education data. The Consumer Spending projection in national currency for 2026 shows variations compared to 2024 with shifts within categories due to new data from official statistics. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

No changes were made to the settlement points since the last release of Chile MBR data.

Other Data Notes

None.
