Colombia

Release: November 2026

Data Source

Data: Official national census data from 2018 served as the foundation and spatial control for this dataset. To produce 2024 demographic estimates, the data provider applied a distributive projection model integrated with official 2024 municipal projections. To produce socioeconomic estimates, the data provider applied a year-by-year distributive projection model using CPI-adjusted ENPH data, ensuring consistent normalization of the data. © National Administrative Department of Statistics (DANE).

Boundaries: © National Administrative Department of Statistics (DANE)

Settlement Points: Settlement points were created using June 2026 Overture Maps Open Data (retrieved from https://registry.opendata.aws/overture). The settlement points contain estimated housing units derived from Address points and Building Footprint polygons. Various additional layers were used remove possible non-residential points.

Dataset Information

Colombia	
3 Letter ISO Country code	COL
Currency	Colombian peso
3 Letter Currency code	USD
Number of attributes available	159
Number of geography levels	5
