Change Notes

Market Data are now projections for 2026 (previously 2024). Population projections at the national level declined by 12.07% compared to former estimates; this difference is attributed to the use of the Census 2022 data from the Instituto Nacional de Estadística for Paraguay. The use of Census 2022 input data from official statistics has led to deviations in Age Groups, and Education data.

No changes were made to the settlement points since the last release of Paraguay MBR data.

Other Data Notes
