None.

Change Notes

Market Data are now projections for 2026 (previously 2024). Unemployed Population data is shown for 2025 (previously 2023). The use of Census 2023 input data from official statistics has led to deviations in Education data. The Purchasing Power and Consumer Spending projections in national currency for 2026 shows an upward trend due to a revision of economic data. Please note that the deviations observed in the values for product groups CS13 to CS16 this year are due to a redefinition of these categories. Due to these changes, comparisons with the last edition are not possible in these groups.

No changes were made to the settlement points since the last release of Uruguay MBR data.
