

ESRI MID-ATLANTIC USER CONFERENCE

ArcGIS Field Apps: What's New and What's Coming

Daniel Wickens – Solution Engineer

dwickens@esri.com

MISSION STATEMENT

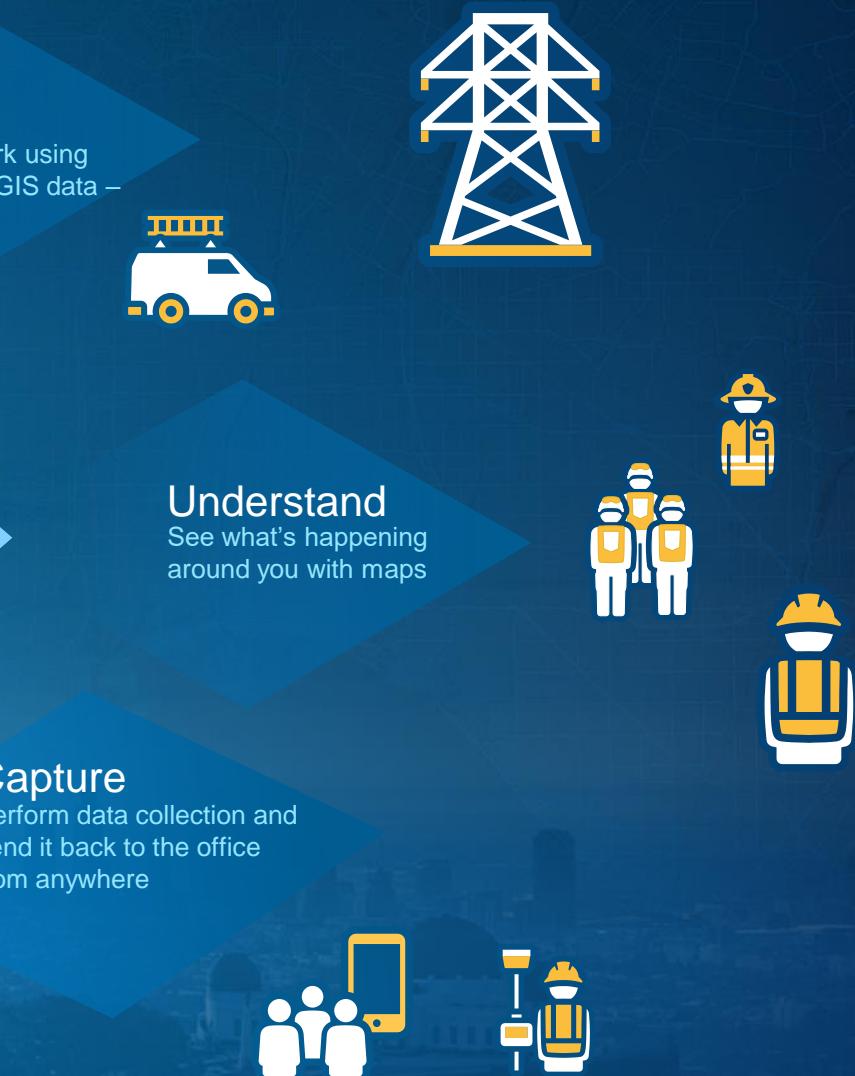

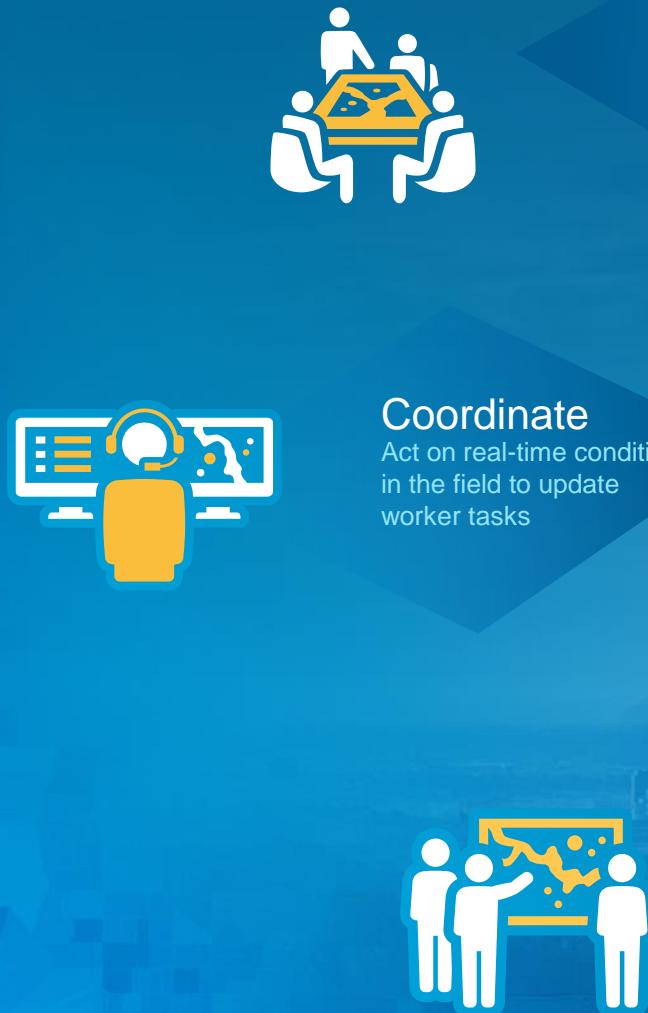

To digitally enable mobile workflows with **location intelligence** so field work can be completed **faster, more efficiently**, with better **return on investment**.

Optimize efficiency in field operations with the power of location intelligence

Field Operations | It starts with ArcGIS

Field Operations | Location-enable all phases of field work

Field Operations | Location-enable all phases of field work

Provide consistency of experience across apps

- Offline modes in every app
- Improve sign in experience across apps
- Achieve and maintain parity across all supported platforms

Enable ArcGIS Smart Forms across apps

- Create and use smart forms within Collector
- View smart forms in Explorer (and across the platform)

Make Field Operations apps easier to set up and manage

- Collector web app

Online Navigation

- Live traffic
- Live weather

Research areas

- Indoor positioning
- Utility network integration
- Parcel fabric integration
- At-rest data encryption
- Augmented reality
- Windows support

Workforce for ArcGIS

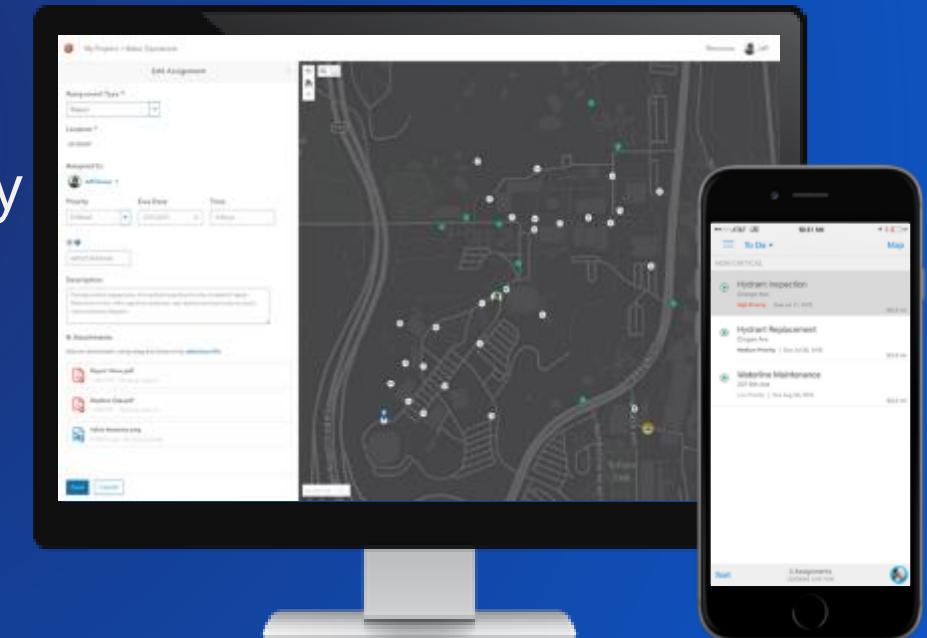

Plan and coordinate field work

Plan and coordinate field work

Use location awareness to improve efficiency

Receive & manage field assignments

Plan
Use location to assign and coordinate field activities

 Download on the App Store

 GET IT ON Google Play

Workforce for ArcGIS

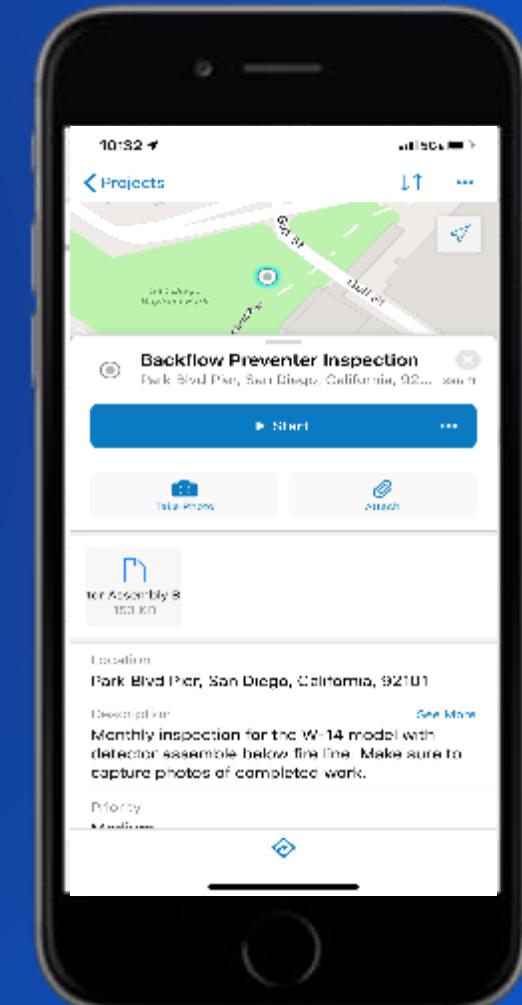

What's Next in Workforce

Support for **offline workflows**

Ability to display local tracks from
Tracker

Pick-up work

Sequencing

Navigator for ArcGIS

Route your field workforce to where it needs to go

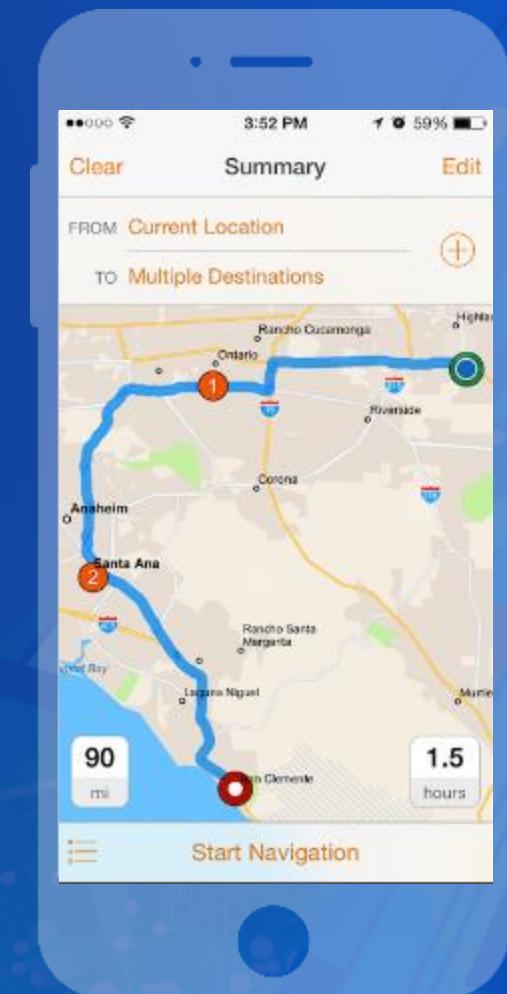

Find assets and navigate to them while **offline**

Use your own maps, asset inventory, and custom roads

Traverse **pre-planned routes** for maximum efficiency

Navigate

Route to your work using your roads, your GIS data – even while offline

Use Route Layers from ArcGIS

What's New in Navigator for ArcGIS

Maps

Plan Route

The screenshot shows a mobile application interface for ArcGIS Navigator. On the right is a map of a residential area with streets like W. Stuart Ave, The Mission Zanja, W. State St, and N. Chester St. A specific location, 'Lugonia Post Office', is marked with a blue location pin. To the left of the map is a detailed information panel for this feature. The panel includes a header with the feature name, a 'Directions' button, and a distance of 41 mi. Below the header is a table of attributes:

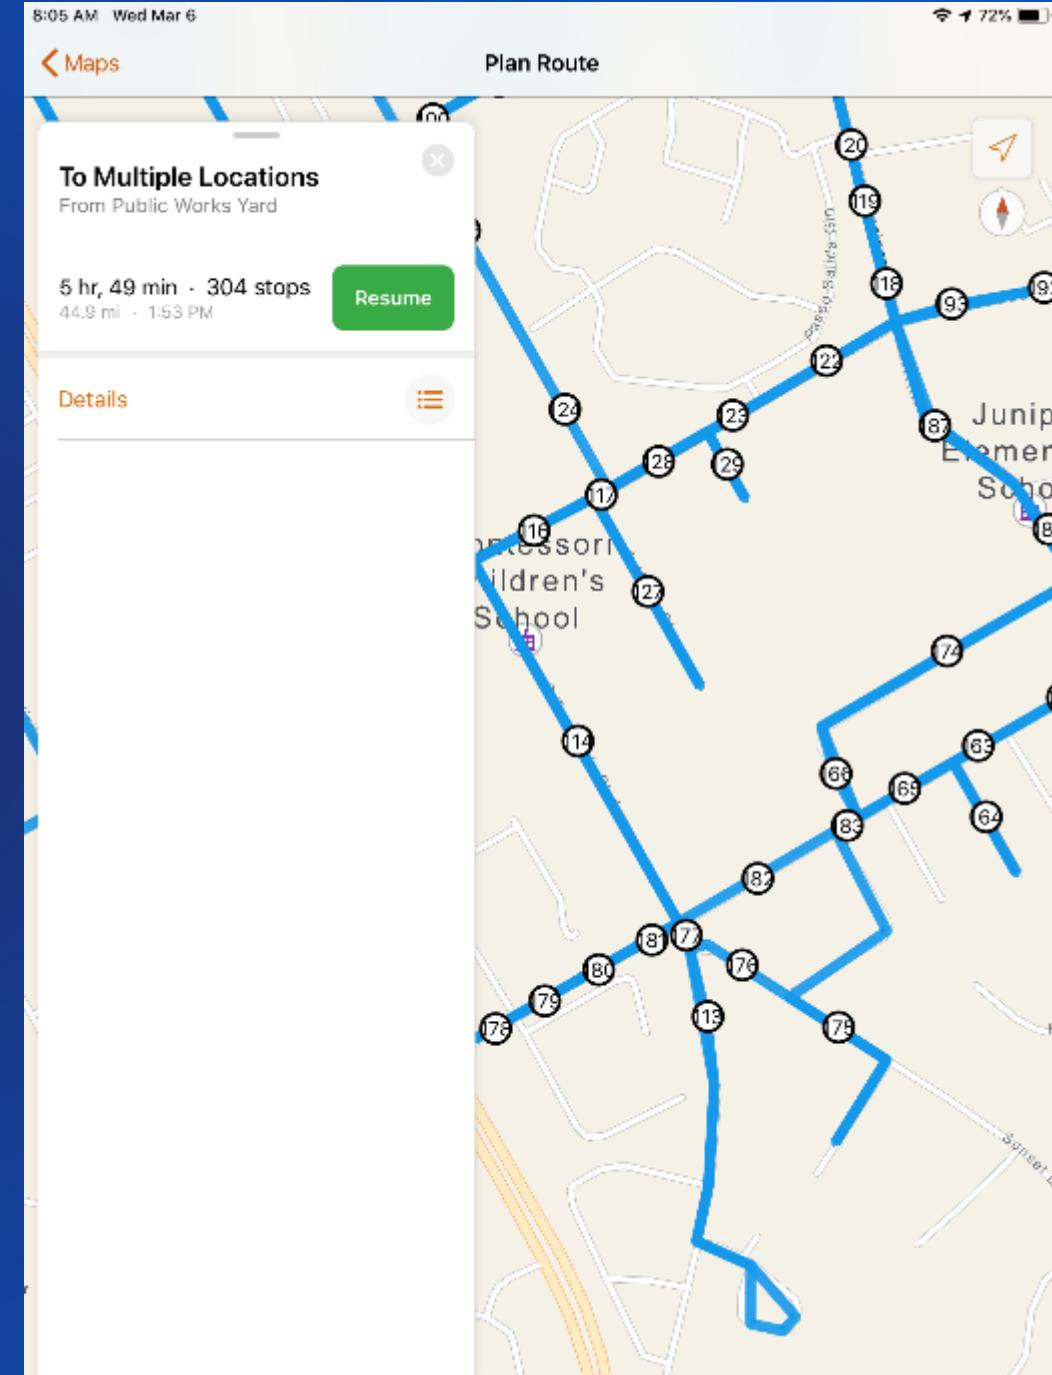

OBJECTID	291
FEATURE_ID	2,455,871
FEATURE_NAME	Lugonia Post Office
FEATURE_CLASS	Post Office
STATE_ALPHA	CA
STATE_NUMERIC	6
COUNTY_NAME	San Bernardino
COUNTY_NUMERIC	71
PRIMARY_LAT_DMS	340328N
PRIM_LONG_DMS	1171141W
PRIMARY_LAT_DMS_D	34.06
PRIM_LONG_DMS_D	-117.19

Route pausing

What's New in Navigator for ArcGIS

- Navigator remembers where you were in your route and intelligently resumes where you left off.
- ‘Lunch mode’

Support for IWA

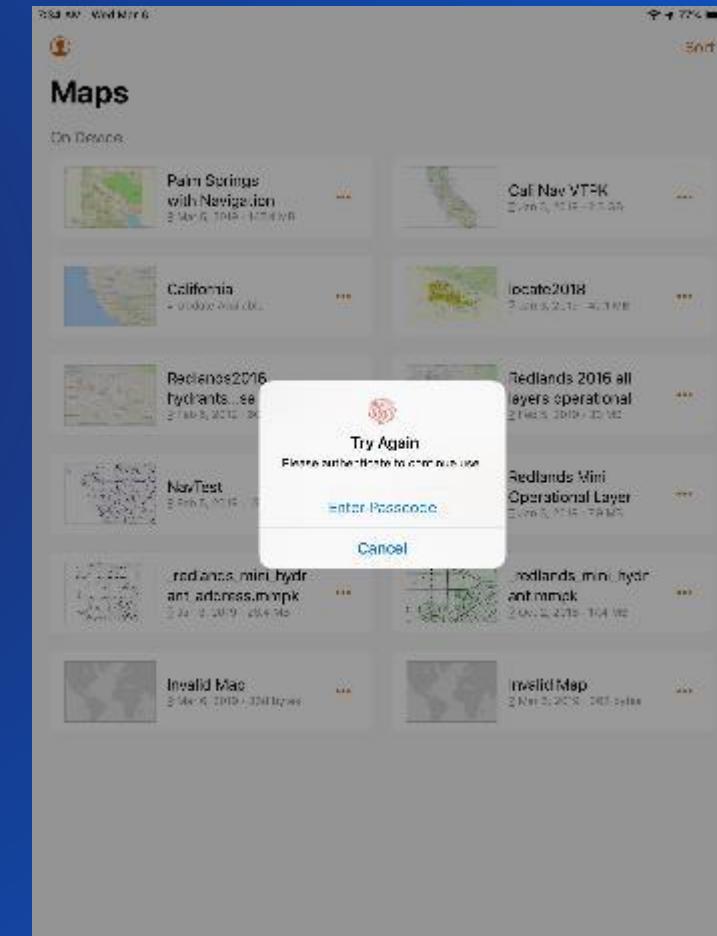

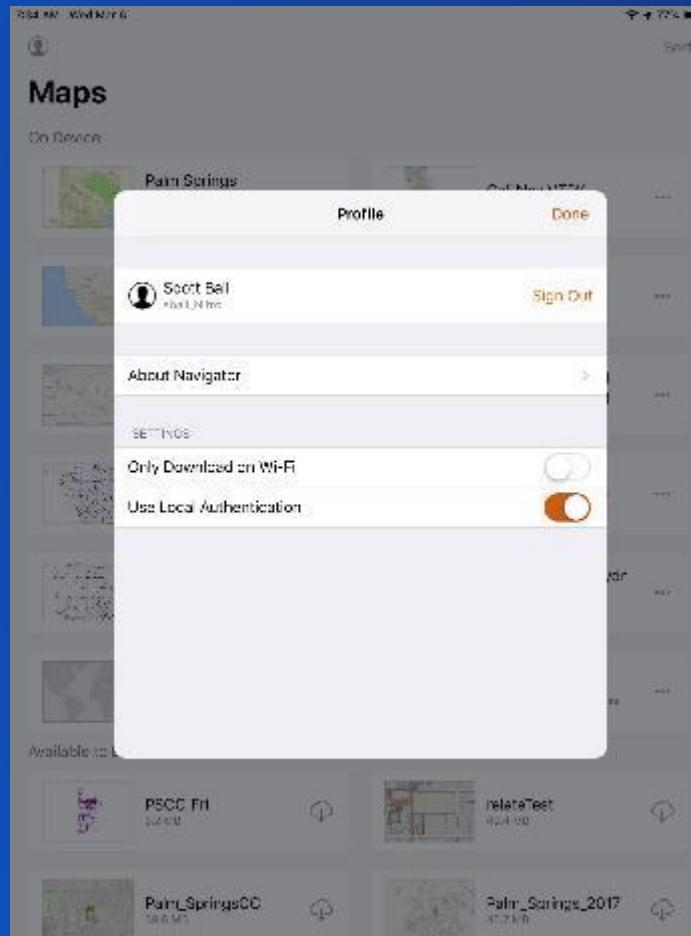

What's New in Navigator for ArcGIS

Biometric authentication

Layer refresh interval support

What's Coming in Explorer for ArcGIS

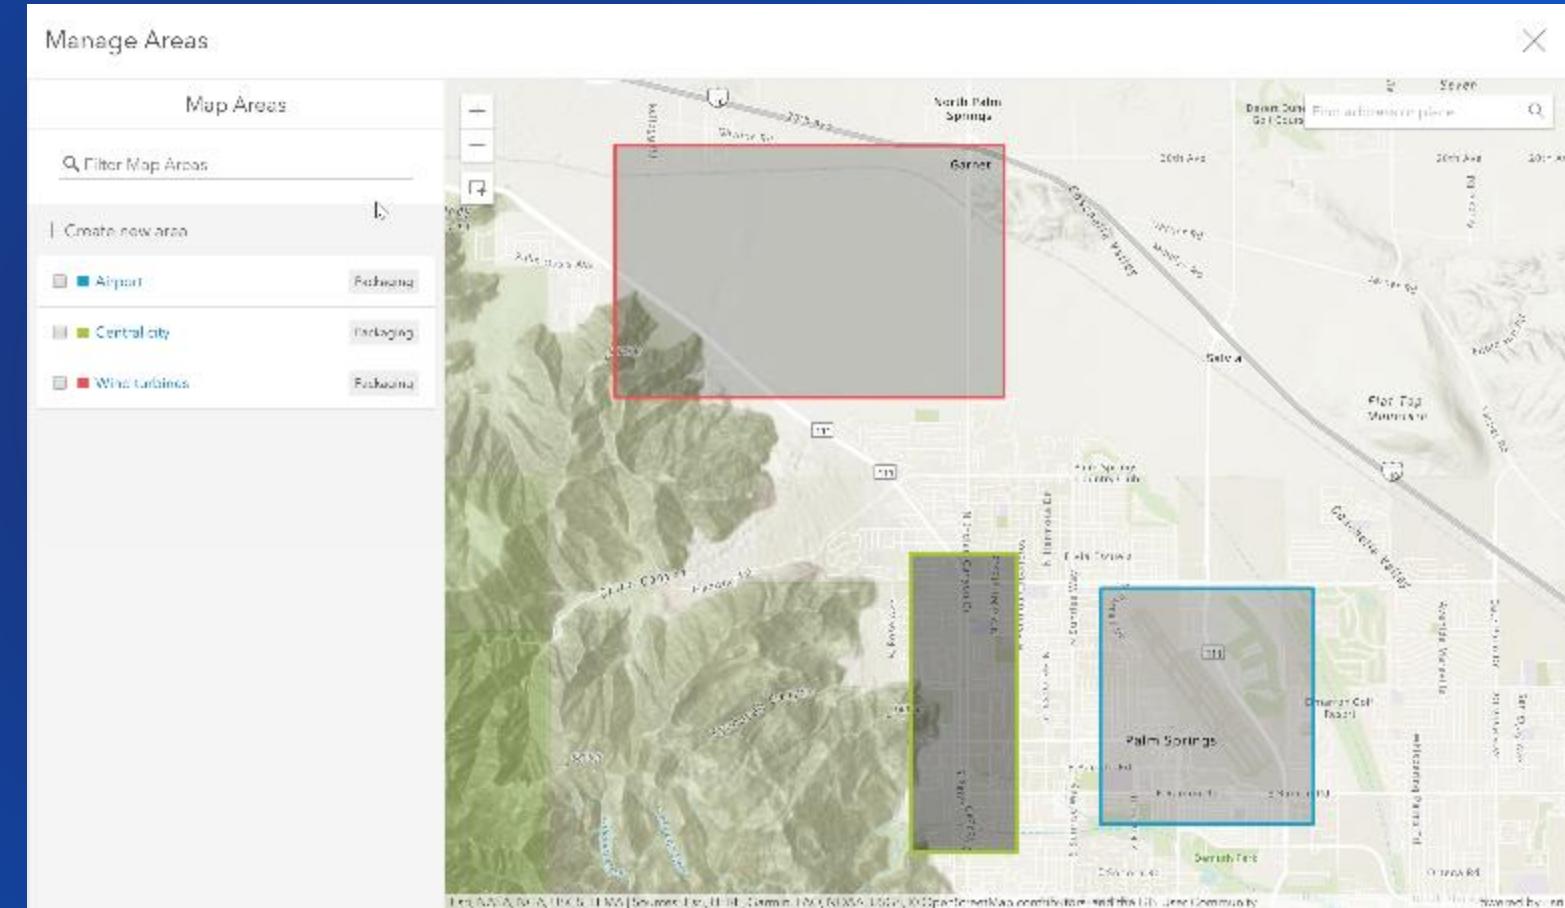

Offline improvements

What's Coming in Explorer for ArcGIS

Offline Areas

Areas are defined in the webmap by the author and loaded onto the device via Explorer

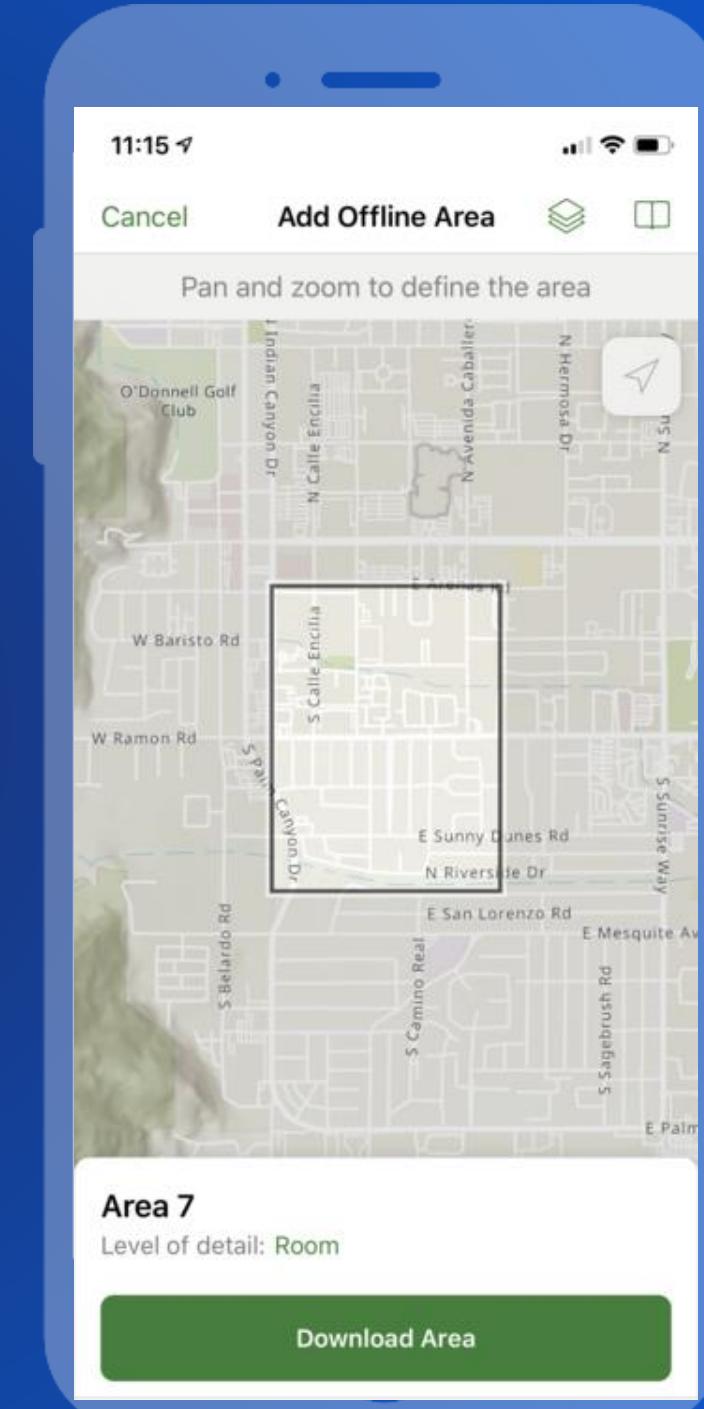

Offline improvements

What's Coming in Explorer for ArcGIS

Offline On-demand

The ability to take part of a webmap offline from within Explorer

Functionally equivalent to what is in Collector today

Collector for ArcGIS

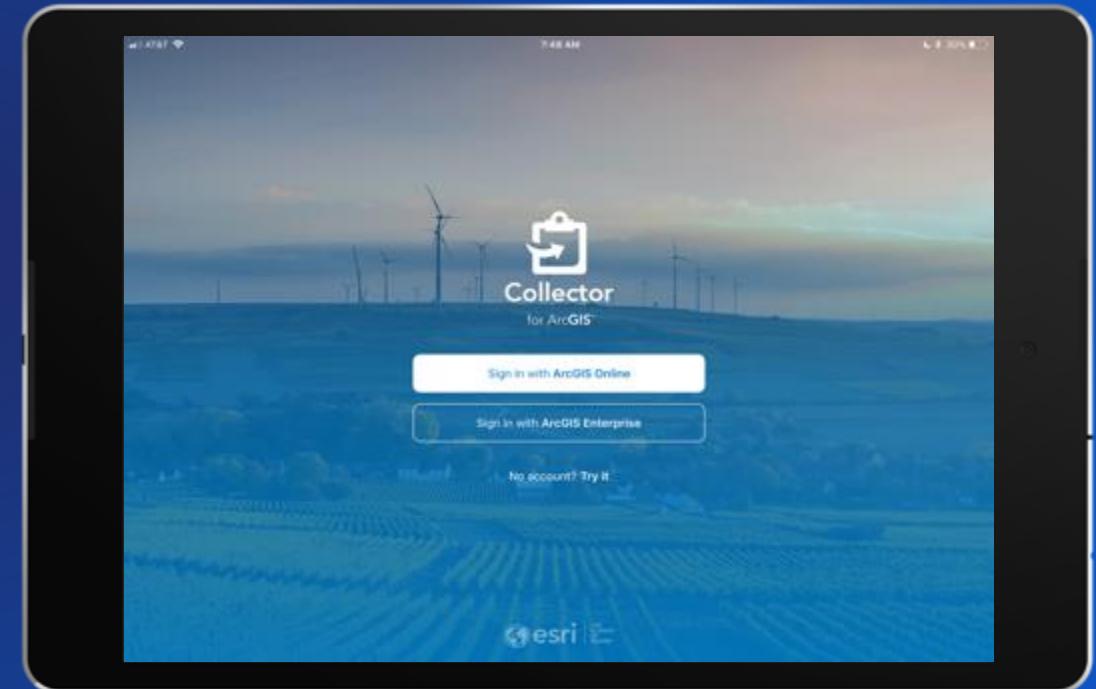

Accurate data collection made easy

Efficient data collection

Works anywhere, anytime

High data accuracy

Capture
Perform data collection and send it back to the office from anywhere

Collector for ArcGIS

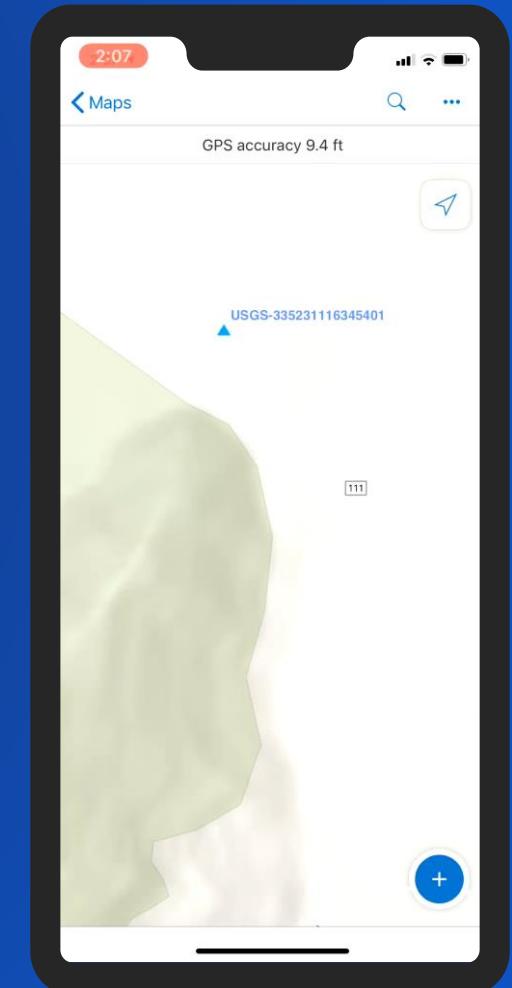

What's New and What's Coming

What's New

- Parity release bringing Collector in line with Collector Classic
- Referenced basemaps, using the Files app, new transformations, more...

What's Coming

- Locate workflows
- PKI support
- Parcel construction
- Snapping
- Bulk attribute update
- Simplifying field deployments with a new web interface
- Android support for new generation of Collector
- Introducing support for ArcGIS Smart Forms
- Utility Network support

Survey123 for ArcGIS

Form Centric Data Collection

Simple data collection experience

Sophisticated smart form capabilities

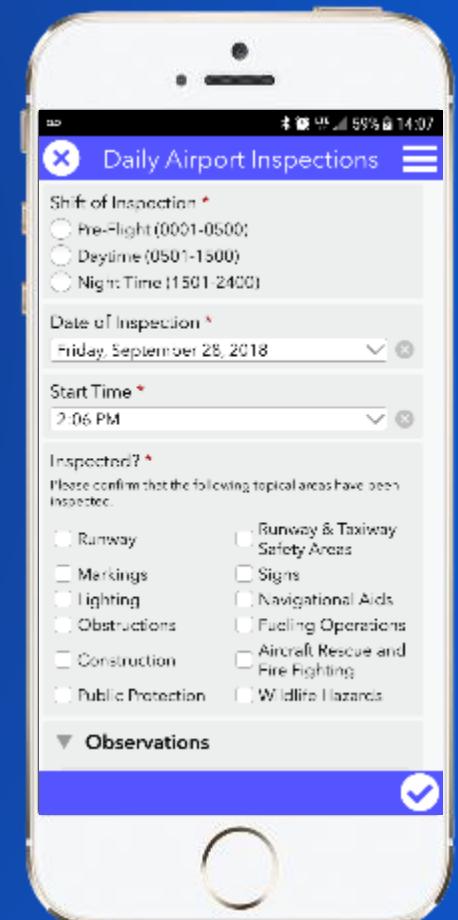

Web & Native

Download on the
App Store

GET IT ON
Google Play

Capture
Perform data collection and
send it back to the office
from anywhere

Survey123 for ArcGIS

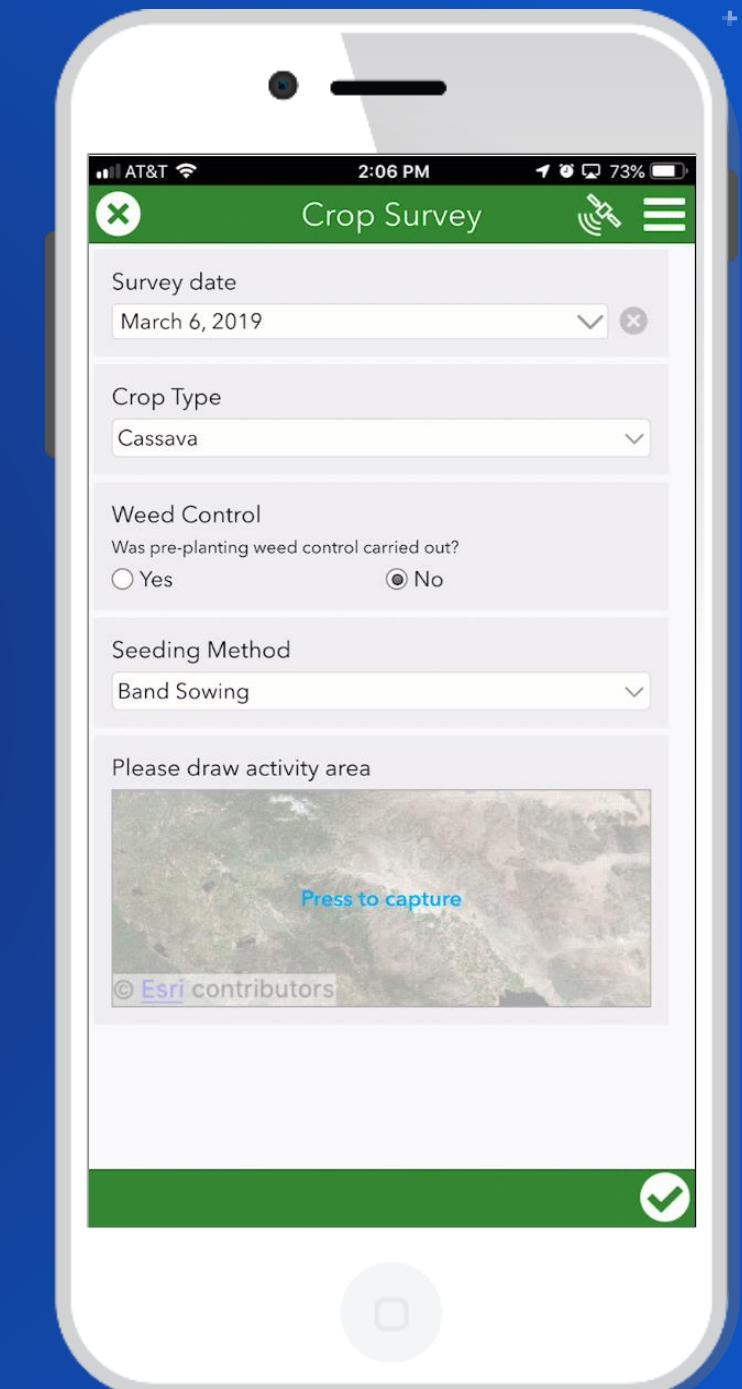

Form Centric Data Collection

What's New

- Feature reports
- Photo Watermarking
- Polygon + line data capture

What's Coming

- Feature report PDF output
- Web maps, mmpk's, VTPK's
- On-prem API/website setup
- Extensibility framework
- Project update notifications

ArcGIS QuickCapture

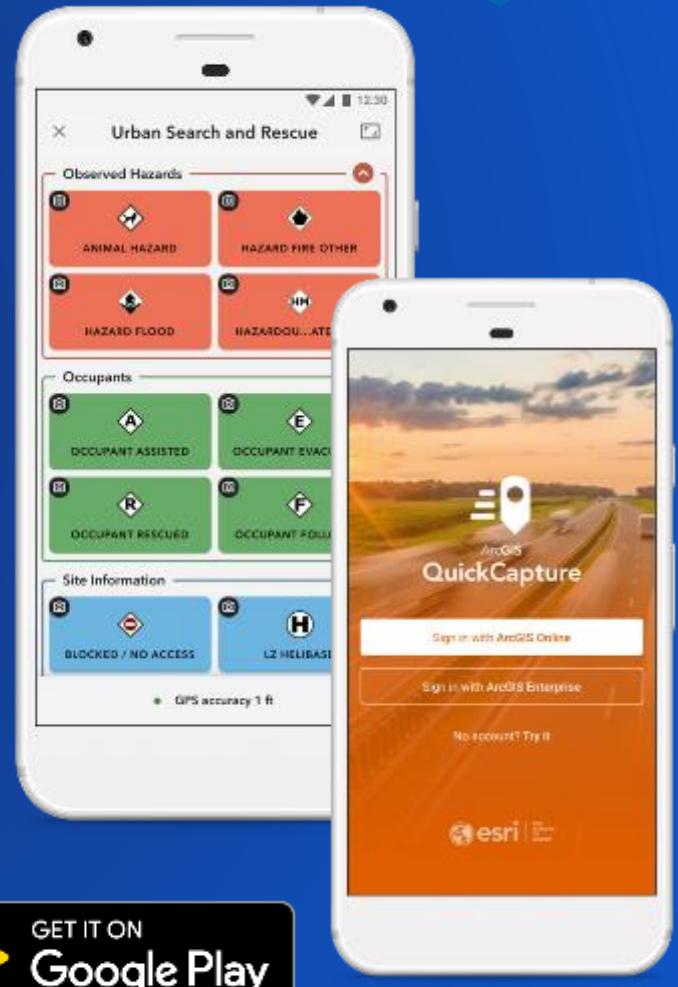

Rapid data collection

A “big button” mobile app

Simplest way to capture field observations

At-speed data collection workflows

Capture
Perform data collection and send it back to the office from anywhere

ArcGIS QuickCapture

Rapid data collection

What's New

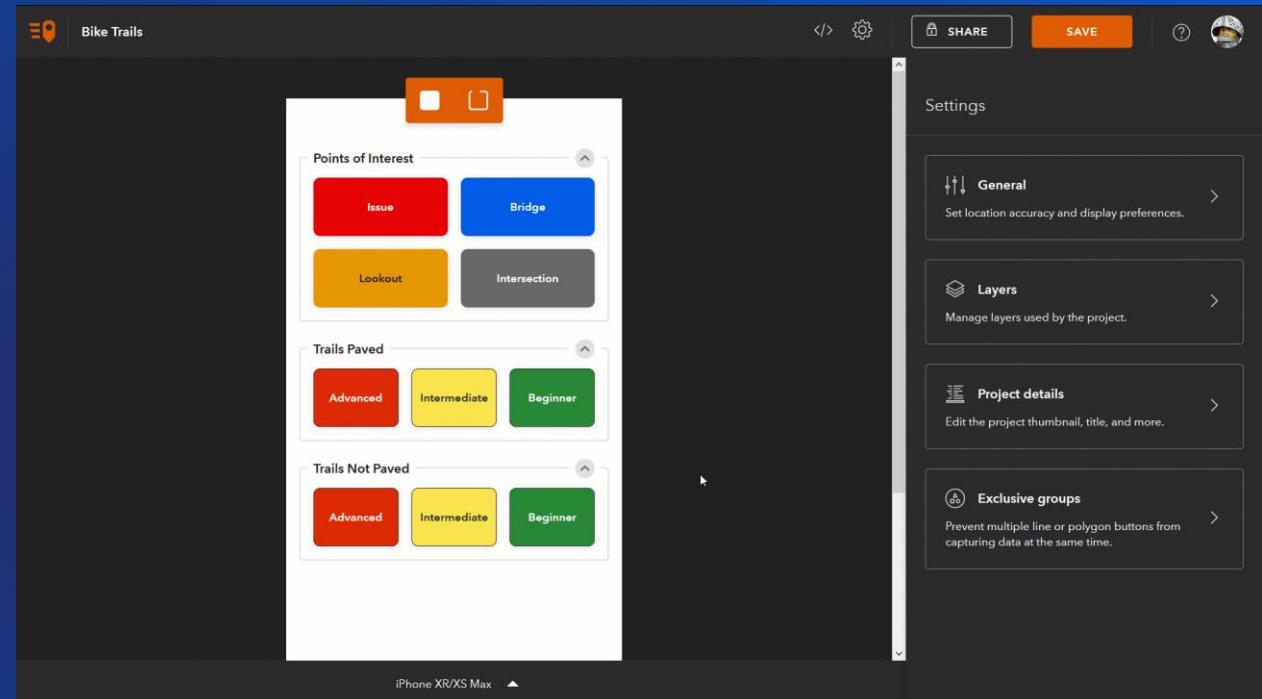

- App launch in July 2019
- Localized to support all languages
- URL scheme support
- Configure Exclusivity Groups in Designer

What's Coming

- Configurable maps (offline and online)
- Side-by-side map view for tablets
- Configure User Inputs in Designer
- Public projects for crowdsourcing and citizen science initiatives

Research

- Hey Quick! (voice operated commands)
- QuickCapture AI (integration with AI object detection)
- Integration with Android and Apple Watch

Tracker for ArcGIS

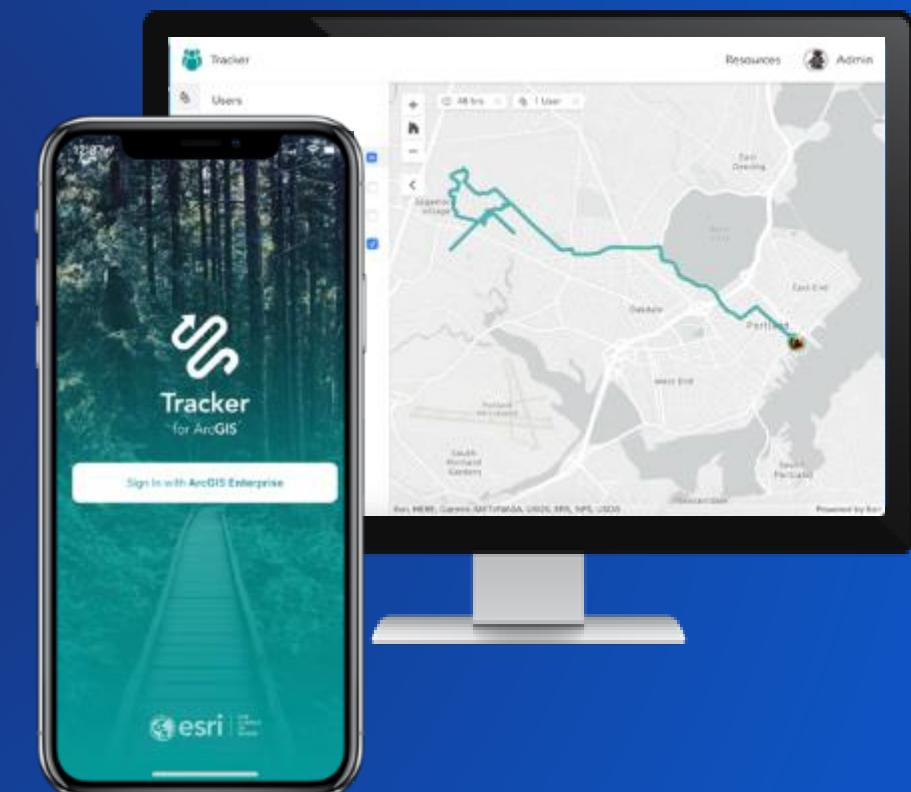

Know what happens in the field

Share your location

Know where everyone is

Own your location data

Monitor
Know where workers are
and see the progress of
work in real-time

 Download on the
App Store

 GET IT ON
Google Play

Tracker for ArcGIS

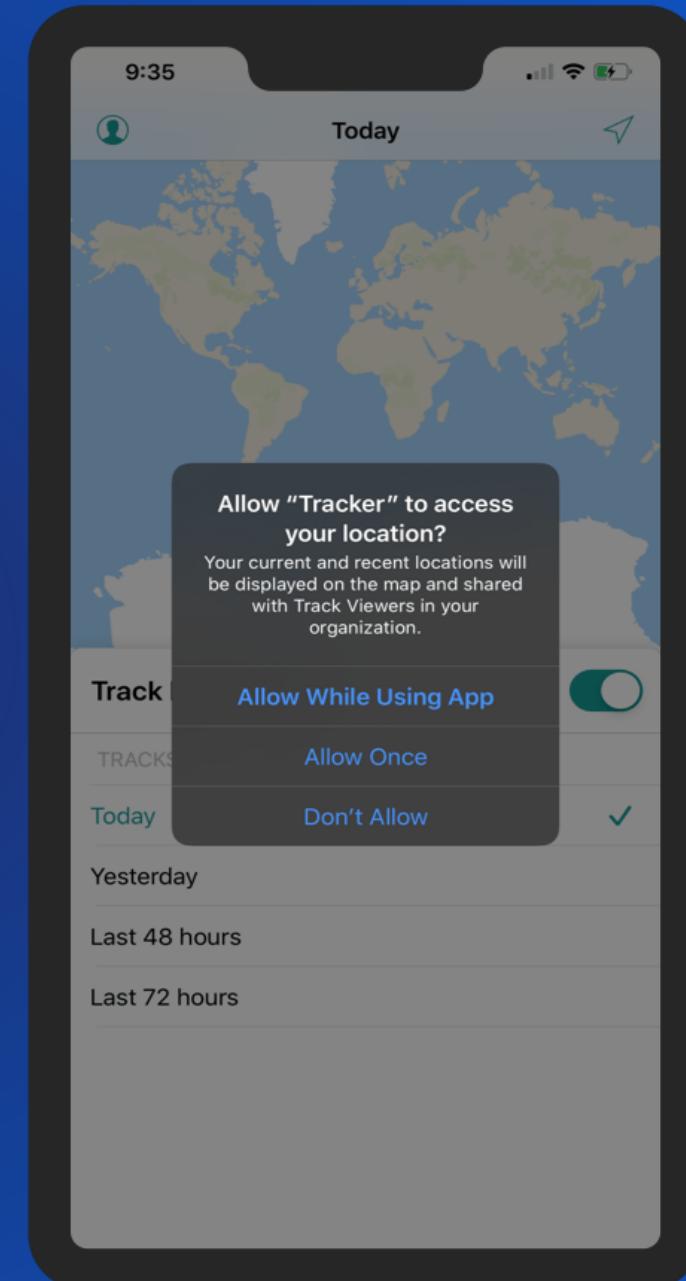

Know what happens in the field

What's New

- App launch in July (ArcGIS Enterprise only)
- Updates to support iOS location privacy changes

What's Coming

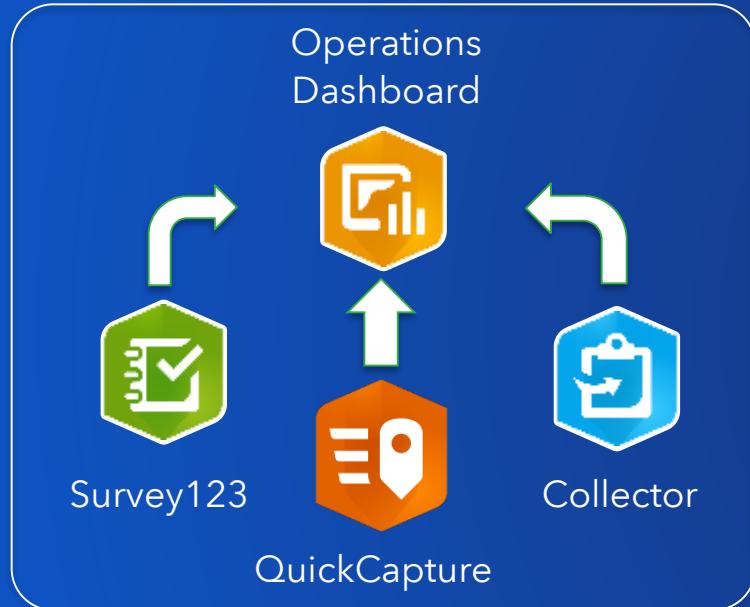

- Availability in ArcGIS Online
- Updates to support Android location privacy changes
- Basic analysis + charting capabilities in the Track Viewer web app

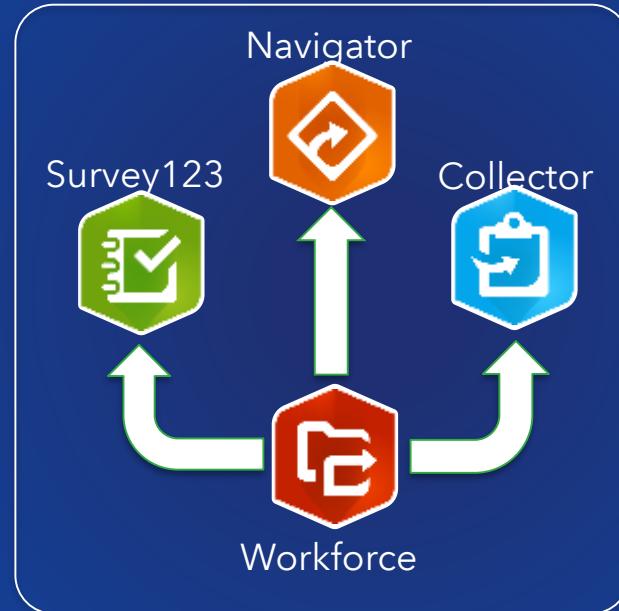

Maps + Forms

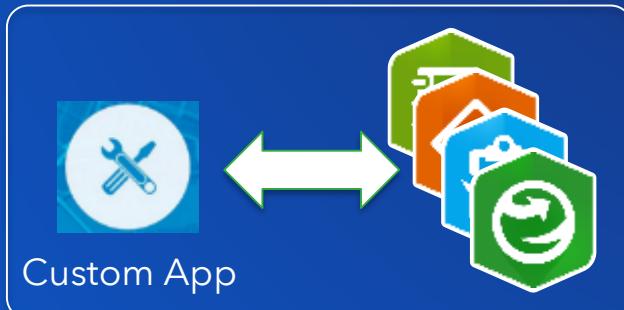

Collect and Monitor

Workforce Launchpad

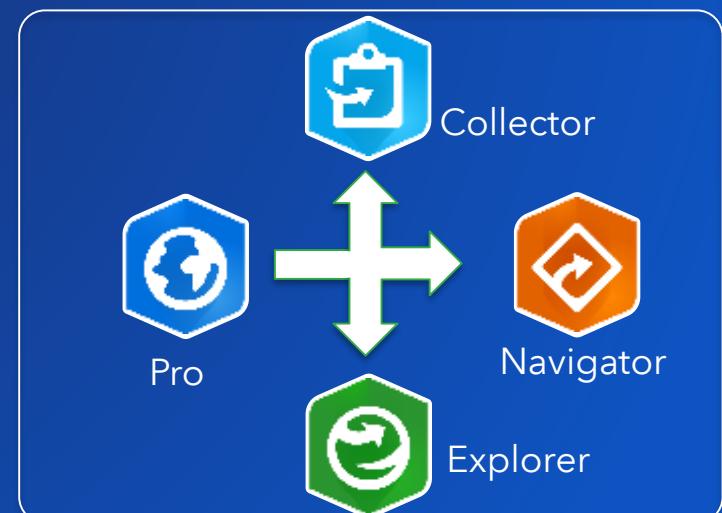

Third Party Integrations

Forms + Maps

Prepare - Field
