What is a Geospatial Strategy?

A **Geospatial Strategy** is a business-oriented plan that defines how an organization will use GIS to achieve its goals and desired outcomes.

The plan includes considerations of people, process, and technology needed to meet goals and overcome challenges.

Key Takeaways

1. Why do you need a strategy?
2. How do you establish a strategy?
3. How do you successfully execute on your strategy?

Why do I need Geospatial Strategy?

Technical Challenges

Legacy technology

Limited exposure to new tech

Staff with training needs

Unreliable architecture

Poor public facing content

Technical Steps

Upgrade
to 10.7

Train staff

Go to the
cloud

Or maybe these steps...

START

A magnifying glass with a gold-colored frame is positioned over a document. The lens is sharply focused on the text "Focus on business!". The surrounding text is blurred but legible, providing context for the business focus. The document appears to be a checklist or a guide for estimating business costs, mentioning items like lease, utilities, advertising, and inventory.

...s, make...
...estimate your monthly... cost. Then...
...cost you for account...
...advertising, print...

How do I establish a Geospatial Strategy?

Developing & Executing a Geospatial Strategy

...Maximize Impact

Business Goals

Improve collaboration between departments for xyz

Do xyz tasks more efficiently

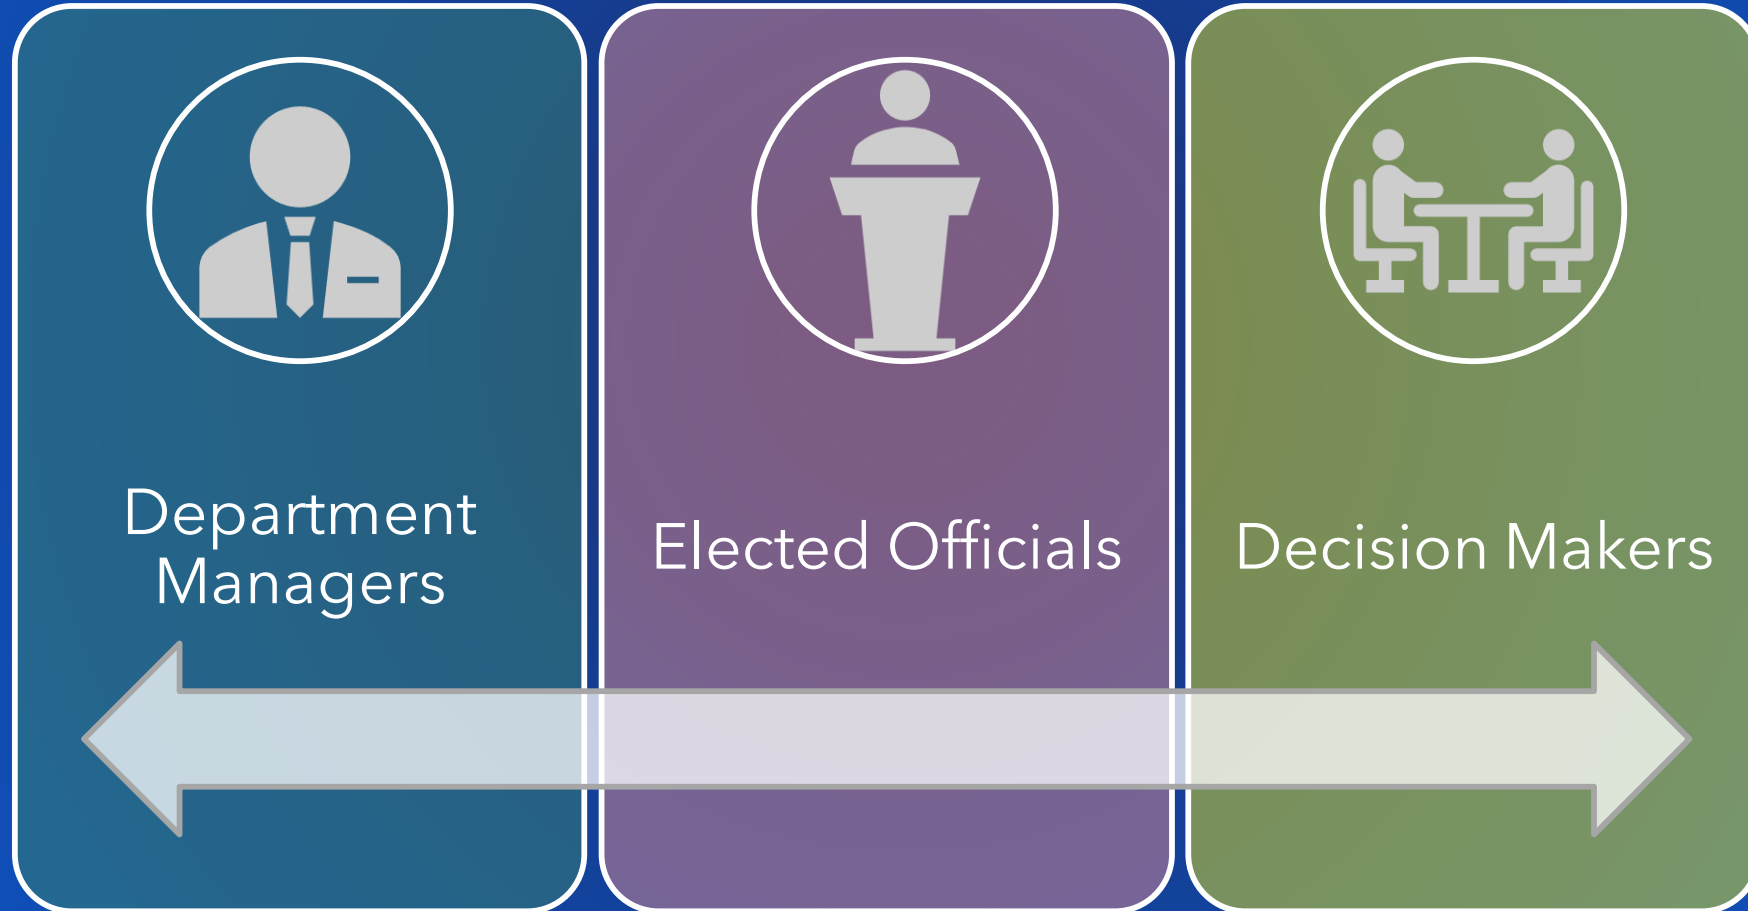

Share success stories with the public

Make better decisions for...

Improve service delivery of xyz

Engage with Leadership

Louisville Jefferson County Information Consortium (LOJIC)

Policy Board

The LOJIC Policy Board is responsible for approving the budgets, outlining goals, approving long-range plans, establishing policies, and designating committee assignments.

- Property Value Administrator
- Chief of Civic Innovation, Louisville Metro Government
- Executive Director, Metropolitan Sewer District
- President/CEO, Louisville Water Company

Business Challenges

Duplicative efforts to address the same problems

Takes a long time to answer questions

Trouble meeting mandates

Inconsistent decision making

Inconsistent service

Engage Across the Organization

Oakland County, Michigan

GIS Expansion Starter Kit

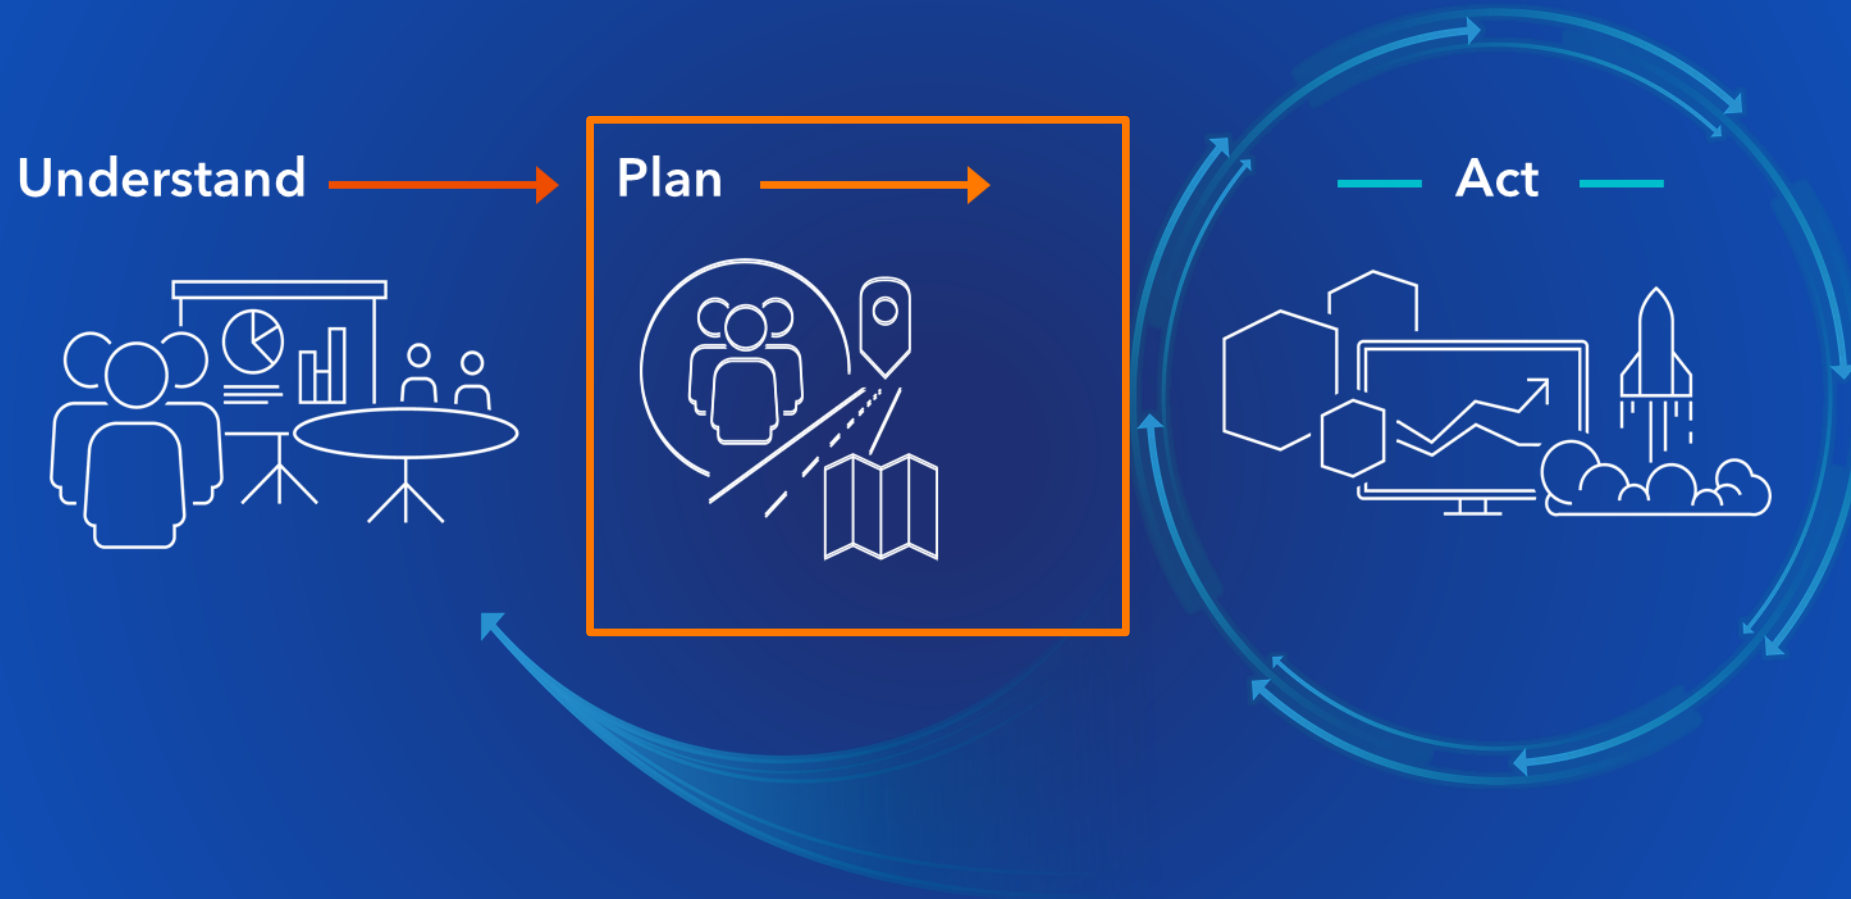

This Starter Kit is intended to help you create a repeatable process to identify new opportunities for incorporating spatial technology into more efficient business workflows and more informed decision making in your community.

GIS Expansion Starter Kit is available at no cost to all local governments.

What can you do?

Understand

- Assemble your team
- Engage across your organization
- Articulate your organizations' goals and challenges

Plan

- Identify ways GIS can bring business value
- Create a plan that takes into account people, process, and technology
- Prioritize and sequence your work

Act

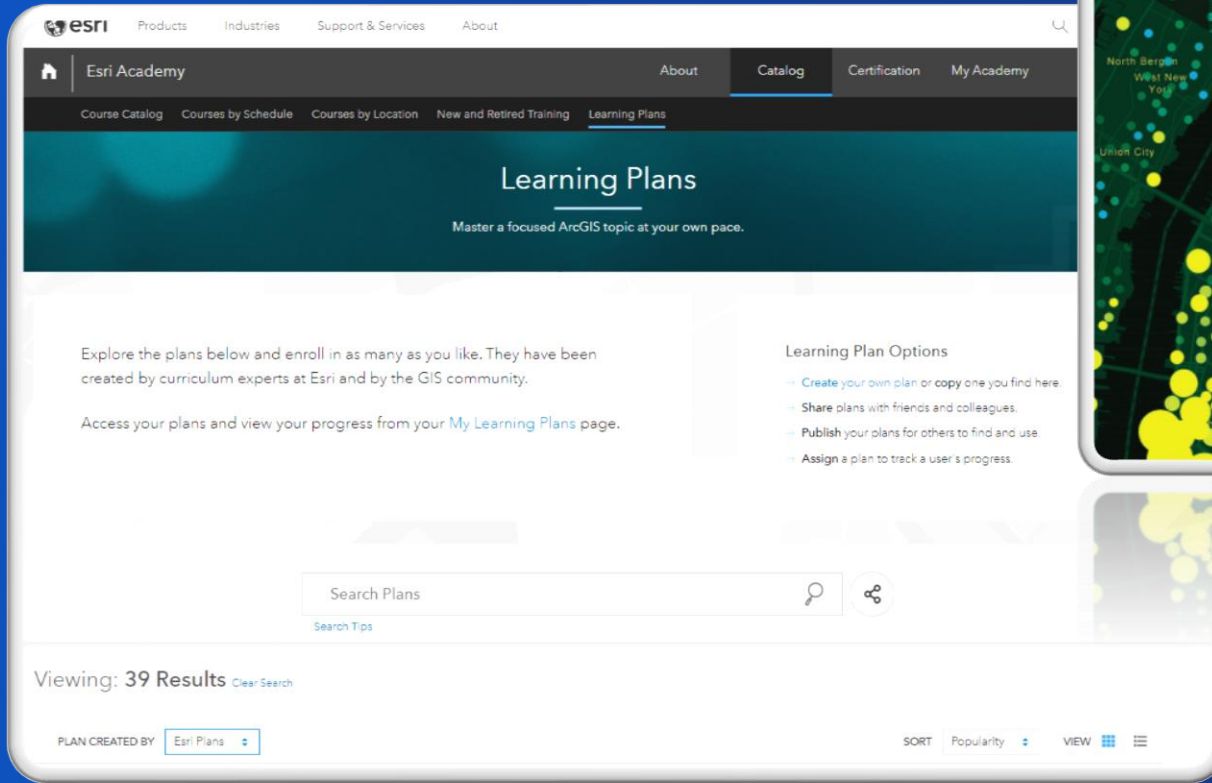

- Bring your solutions to life: prepare, implement, operate, and review each one
- Share your strategy and successes
- Revisit your strategy

UC Resources

- Introduction to Geospatial Strategy Technical Workshop
 - Tuesday, July 9: 1p-2p, SDCC – Room 17 B
 - Wednesday, July 10: 10a-11a, SDCC – Room 31 A
- Sign up Expo Activity: <https://www.esri.com/en-us/about/events/uc/experience/arcgis-appointments>
- Geospatial Strategy Panel
 - Thursday, July 11: 1p-2p, SDCC – Room 16 B
