Migration routes of Rrom people in Colombia

a tool for peace

Colombian Rrom people's itinerant routes, a tool for peace.

Gina Katherín Martínez Garcia

GIS allows the peace-building process in Colombia

Today:

1. Who the Rrom people are?
2. Creation process of the geographic web application.
3. A GIS tool that contributes to peace-building.

Rrom people in Colombia

A long way to be recognized.

A screenshot of a map application interface. On the left side, there is a vertical toolbar with four icons: a plus sign for zooming in, a minus sign for zooming out, a house icon for home, and a circular arrow icon for refreshing. The map itself shows a coastal region with a blue sea and a light-colored landmass. A red line with arrows at both ends indicates a route from a point labeled 'Magdalena' to a point labeled 'Le Gorgire'. A green dashed line with arrows at both ends indicates a distance or path between two points on the landmass.

“Be tolerant of one another and forgive each other if anyone has a complaint against another. Just as the Lord has forgiven you, you also should forgive.”

Colossians 3:13
