Did You Know? The map of the Holy Land featured in *Rudimentum Novitiorum*—a world history encyclopedia published in 1475—is widely regarded as the first modern printed map.

USA Annual National Land Cover Dataset (NLCD) Confidence, Stratford, Texas, by Michael Dangermond, Emily Meriam, and Craig McCabe.

How certain are you that a pixel is in the correct land cover class? The Annual NLCD confidence layer quantifies certainty on a scale of 0 to 100. Through this layer you can express high confidence that the irrigated wheat and cornfields (deep-blue circles) are in the correct class. Less certain areas, such as towns, shrub lands, and grasslands,

are shown in lighter and warmer shades, such as turquoise, ochre, or yellow.

Esri, USGS, 2024, Annual NLCD Collection 1 Science Products: US Geological Survey data release, <https://doi.org/10.5066/P94UXNTS>.
