

Contents

- Prefaceix
- Acknowledgments.....xiii

- Chapter 1** Introducing advanced Python scripting 1
 - 1.1** Introduction 1
 - 1.2** Python scripting in ArcGIS Pro using ArcPy 2
 - 1.3** Python versions and ArcGIS 2
 - 1.4** ArcGIS API for Python and Jupyter Notebook 3
 - 1.5** The structure of this book..... 3
 - 1.6** A note about code in this book..... 4
 - 1.7** Working with Python editors..... 5
 - 1.8** Exploring example scripts, tools, and notebooks 5
 - Points to remember.....17
 - Key terms18
 - Review questions18

- Chapter 2** Creating Python functions and classes.....19
 - 2.1** Introduction19
 - 2.2** Functions and modules19
 - 2.3** Creating functions 22
 - 2.4** Calling functions from other scripts..... 29
 - 2.5** Organizing code into modules 32
 - 2.6** Creating classes 36
 - 2.7** Working with packages 42
 - Points to remember..... 47
 - Key terms 47
 - Review questions 48

Chapter 3	Creating Python script tools	49
3.1	Introduction	49
3.2	Script tools versus Python toolboxes	49
3.3	Why create your own tools?	50
3.4	Steps to creating a script tool	51
3.5	Exploring tool parameters	62
3.6	Setting tool parameters	69
3.7	Editing tool code to receive parameters	79
3.8	Customizing tool behavior	83
3.9	Working with messages	83
3.10	Handling messages for stand-alone scripts and tools	89
3.11	Customizing tool progress information	89
	Points to remember	91
	Key terms	92
	Review questions	92
Chapter 4	Python toolboxes	93
4.1	Introduction	93
4.2	Creating and editing a Python toolbox	93
4.3	Defining a tool and tool parameters	101
4.4	Working with source code	109
4.5	Comparing script tools and Python toolboxes	112
	Points to remember	113
	Key terms	113
	Review questions	114
Chapter 5	Sharing tools	115
5.1	Introduction	115
5.2	Choosing a method for distributing tools	115
5.3	Handling licensing issues	116
5.4	Using a standard folder structure for sharing tools	117
5.5	Working with paths	119
5.6	Finding data and workspaces	122
5.7	Embedding scripts, password-protecting tools	125

5.8	Documenting tools	128
5.9	Example tool: Terrain Tools	132
5.10	Creating a geoprocessing package	136
5.11	Creating a web tool	140
	Points to remember	142
	Key terms	142
	Review questions	143
Chapter 6	Managing Python packages and environments	145
6.1	Introduction	145
6.2	Modules, packages, and libraries	145
6.3	Python distributions	146
6.4	Package managers	147
6.5	Python environments	147
6.6	Manage environments using conda	151
6.7	Manage packages using conda	154
6.8	Using conda with command line	156
6.9	Environments and IDEs	160
	Points to remember	161
	Key terms	161
	Review questions	162
Chapter 7	Essential Python modules and packages for geoprocessing	163
7.1	Introduction	163
7.2	Working with zip files using <code>zipfile</code>	164
7.3	Working with XML files using <code>xml.dom</code>	167
7.4	Working with web pages using <code>urllib</code>	169
7.5	Working with CSV files using <code>csv</code>	171
7.6	Working with Excel files using <code>openpyxl</code>	174
7.7	Working with JSON using <code>json</code>	178
7.8	Working with NumPy arrays	185
7.9	Using Pandas for data analysis	191
7.10	Using Matplotlib for data visualization	196
	Points to remember	200

Key terms	201
Review questions	201
Chapter 8 Migrating scripts from Python 2 to 3	203
8.1 Introduction	203
8.2 Overview of migrating scripts	203
8.3 Changes between Python 2 and 3	204
8.4 Python 2to3 program	208
8.5 Changes in ArcGIS Pro	209
8.6 ArcPy changes	210
8.7 Analyze Tools for Pro	215
Points to remember	219
Key terms	220
Review questions	221
Chapter 9 ArcGIS API for Python	223
9.1 Introduction	223
9.2 What is the ArcGIS API for Python?	224
9.3 Installation of ArcGIS API for Python	225
9.4 Basics of Jupyter Notebook	227
9.5 Creating and opening a notebook	228
9.6 Writing code in a notebook	234
9.7 Using Markdown in a notebook	238
9.8 Starting the ArcGIS API for Python	248
9.9 Adding content	252
9.10 Creating content	254
9.11 Performing analysis	257
9.12 ArcPy versus ArcGIS API for Python	261
9.13 Working with JupyterLab	263
9.14 Documentation and help files	264
9.15 ArcGIS Notebooks	266
Points to remember	267
Key terms	268
Review questions	268
