Introduction	ix
How to use this book	xi
Chapter 1: Designing a Python solution.	1
Objectives	1
Introduction	1
Gathering the requirements	1
Identifying the solution design audience	4
Delivering your solution	4
Database backends	6
Deploying solutions	6
The solution design	8
Take the next step	9
On your own	9
Summary	9
Chapter 2: Data structures and script flow.	11
Objectives	11
Introduction	11
JSON as Python	12
Tutorial 2-1: Data structures—lists and dictionaries	12
Script flow	19
Tutorial 2-2: Script flow basics	20
Summary	26
Chapter 3: ArcPy basics	27
Objectives	27
Introduction	27
Where to use ArcPy	27
ArcPy modules and components	28
Tutorial 3-1: ArcPy and cursors	29
Tutorial 3-2: Working with ArcGIS Pro maps	35
On your own	39
Summary	39
Chapter 4: ArcGIS API for Python basics	41
Objectives	41
Introduction	41
Tutorial 4-1: Publishing data	41
On your own	48
Take the next step	48
Summary	48

Chapter 5: Object-oriented programming	49
Objectives	49
Introduction	49
Tutorial 5-1: Creating classes and methods	49
Creating data classes	56
Additional classes and methods	57
Using the class in your script	64
Summary	64
Chapter 6: Interactive Python (IPython) and notebooks	65
Objectives	65
Introduction	65
Interactive terminals	65
Jupyter notebooks	66
Tutorial 6-1: Creating a Jupyter notebook	67
Notebooks in the ArcGIS ecosystem	69
Tutorial 6-2: Creating a map in a notebook	70
On your own	73
Summary	73
Chapter 7: Working with REST APIs	75
Objectives	75
Introduction	75
Tutorial 7-1: Pulling data from an API	75
Tutorial 7-2: Posting data to an API	78
Summary	80
Chapter 8: Data manipulation	81
Objectives	81
Introduction	81
The DataFrame structure	81
Tutorial 8-1: Attribute manipulation with DataFrames	83
Geospatial data with DataFrames	88
Tutorial 8-2: Working with spatially enabled DataFrames	88
Summary	95
Chapter 9: Data engineering	97
Objectives	97
Introduction	97
What is data engineering?	97
Extract, transform, load	98
Extract	99
Tutorial 9-1: Extracting data from an API	99
Transform	104
Load	104
Tutorial 9-2: Transforming and loading data	105
Summary	109

Chapter 10: Concurrency and parallelism	111
Objectives	111
Introduction	111
Overview of concurrency and parallelism	111
Tutorial 10-1: Concurrency with threads	112
Tutorial 10-2: Multiprocessing	120
Summary	125
Chapter 11: Data visualization	127
Objectives	127
Introduction	127
Charting in Pandas	127
Tutorial 11-1: Getting started with charts	128
Other Python charting packages	134
Tutorial 11-2: Exploring Python charting packages	136
Summary	144
Chapter 12: Interacting with databases	145
Objectives	145
Introduction	145
Enterprise geodatabases	145
File geodatabases	146
Tutorial 12-1: File geodatabases and Python	146
SQLite geodatabases	153
Tutorial 12-2: SQLite geodatabases and Python	154
Object relational mappers	163
Summary	163
Chapter 13: Geoprocessing and toolboxes	165
Objectives	165
Introduction	165
Geoprocessing toolboxes and modules	165
Starting your development in ArcGIS Pro	166
Building script tools	167
Tutorial 13-1: Creating a script tool	167
Comparing script tools and Python toolboxes	174
Tutorial 13-2: Creating a Python toolbox	174
Summary	180
Chapter 14: ArcGIS Online and Portal for ArcGIS administration	181
Objectives	181
Introduction	181
Tutorial 14-1: Creating a content search script	181
Summary	190

Chapter 15: Using web frameworks to create user interfaces	191
Objectives	191
Introduction	191
Tutorial 15-1: Creating a Flask app	192
Summary	204
Chapter 16: Distributing your code	205
Objectives	205
Introduction	205
Tutorial 16-1: Packaging your code	205
Tutorial 16-2: Creating a CLI	211
Summary	216
Chapter 17: Styling and documenting your code	217
Objectives	217
Introduction	217
Pythonic code	217
Tutorial 17-1: Using autoformatters	224
Tutorial 17-2: Creating automatic documentation	225
Summary	232
Chapter 18: Imagery and GeoAI	233
Objectives	233
Introduction	233
Raster data and analysis in Python	233
Getting raster data to analyze	234
Tutorial 18-1: Gathering raster data	234
GeoAI and deep learning	242
Tutorial 18-2: Analyzing change between rasters	242
Summary	250
