Preface

What are UI patterns?	ix
How to use this book	x
Terminology	xi
List of patterns	xi

Chapter 1 1

Getting started with design

Defining the problem	2
Wireframes and mock-ups	2
Design principles	3
Design systems	4
Patterns	5
Landing page	6
Task oriented	9
Empty state	12
Focal point	16
Search	19
Location finder	23

References	25
------------	----

Chapter 2 26

Selecting the right layout

Knowing your personas	26
Types of apps	27
Patterns	29
Full map	31
Partial map	34
Reference map	37
Embedded map	40
No map	43
Focus on the subject	46

References	48
------------	----

Chapter 3 49

Interacting with the map

Navigation	49
Information retrieval	50
Patterns	51
Zoom control	53
Marker	56
Rich marker	60
Visited marker	63
Info pop-up	66
Info panel	70
MapTip	73
3D	76

References	79
------------	----

Chapter 4 80

Dealing with complex data

Reducing the amount of data	80
Solution strategies	81
Patterns	83
Attribute filter	85
Spatial filter	89
Timeline slider	92
Feature selection	95
Cluster marker	98
Chart marker	102

References	104
------------	-----

Chapter 5 105

Designing for mobile devices

Responsive versus native apps	105
Challenges and opportunities	106
How to use a mobile map	108
Patterns	111

Locate me	112
Blue dot	115
Floor selector	118
Search this area	122
Offline maps	125
Augmented reality	128

References	131
------------	-----

Chapter 6 132

Building single-purpose apps

App templates	132
Locator apps	133
Navigation apps	133
Storytelling apps	134
Dashboards	135
App builders	136
Patterns	137

Location list	139
Store locator	143
List and details	147
Search and edit	150
Scroll to pan	153
Extent-driven content	156

References	158
------------	-----

Chapter 7 159

Common mistakes and how to avoid them

Cost of design mistakes	159
Frequent mistakes	160
Patterns	161

Kitchen sink	162
Desert fog	165
Data-ink ratio	168

References	171
