

# Contents

Preface .....	ix
Acknowledgments.....	xi
<b>Part 1: GIS benefits and map basics.....</b>	<b>1</b>
<b>Chapter 1: Introducing GIS and health applications.....</b>	<b>1</b>
<b>What is GIS? .....</b>	<b>1</b>
<b>Summary of chapters.....</b>	<b>7</b>
<b>Introduction to ArcGIS and map documents .....</b>	<b>10</b>
<b>Learning about ArcGIS .....</b>	<b>11</b>
<b>Tutorial 1-1: Exploring the ArcCatalog user interface.....</b>	<b>12</b>
<b>Tutorial 1-2: Reviewing data source types.....</b>	<b>16</b>
<b>Tutorial 1-3: Exploring the ArcMap user interface .....</b>	<b>18</b>
<b>Tutorial 1-4: Using and exporting a map.....</b>	<b>24</b>
<b>Learning about GIS websites.....</b>	<b>28</b>
<b>Tutorial 1-5: Creating and sharing map layers.....</b>	<b>28</b>
<b>Tutorial 1-6: Using maps on smartphones and tablets.....</b>	<b>34</b>
<b>Summary.....</b>	<b>37</b>
<b>Assignment 1-1: Benchmark health GIS websites.....</b>	<b>38</b>
<b>Assignment 1-2: Create a map using GIS websites .....</b>	<b>39</b>
<b>Assignment 1-3: Create and upload layer packages.....</b>	<b>40</b>
<b>Chapter 2: Visualizing health data .....</b>	<b>43</b>
<b>Health-care scenario .....</b>	<b>43</b>
<b>Solution approach.....</b>	<b>43</b>
<b>Tutorial 2-1: Manipulating layers in a map document.....</b>	<b>44</b>
<b>Tutorial 2-2: Zooming to and panning health features on a map.....</b>	<b>55</b>
<b>Tutorial 2-3: Creating spatial bookmarks.....</b>	<b>59</b>
<b>Tutorial 2-4: Identifying breast cancer mortality rates and deaths by state .....</b>	<b>60</b>
<b>Tutorial 2-5: Selecting map features.....</b>	<b>65</b>
<b>Tutorial 2-6: Finding map features.....</b>	<b>72</b>
<b>Tutorial 2-7: Using an attribute table to select counties with high breast cancer rates.....</b>	<b>74</b>
<b>Tutorial 2-8: Creating a new layer of a subset of features.....</b>	<b>82</b>
<b>Tutorial 2-9: Creating a point map based on a definition query .....</b>	<b>83</b>
<b>Tutorial 2-10: Labeling major cities in Texas.....</b>	<b>86</b>
<b>Summary .....</b>	<b>91</b>
<b>Assignment 2-1: Examine male lung cancer mortality rates by state .....</b>	<b>92</b>
<b>Assignment 2-2: Examine male lung cancer mortality rates by county .....</b>	<b>94</b>

<b>Part 2: Preparation of map data</b> .....	97
<b>Chapter 3: Designing maps for a health study</b> .....	97
<b>Health-care scenario</b> .....	97
<b>Solution approach</b> .....	97
<b>Tutorial 3-1: Creating a choropleth map for the uninsured population in Texas</b> .....	99
<b>Tutorial 3-2: Creating a point map for the percentage of unemployed in Texas</b> .....	106
<b>Tutorial 3-3: Making a scatterplot comparing uninsured with unemployed populations</b> .....	109
<b>Tutorial 3-4: Working with layer files</b> .....	112
<b>Tutorial 3-5: Creating print layouts for a health-care study</b> .....	114
<b>Tutorial 3-6: Creating custom map layouts for multiple maps</b> .....	117
<b>Tutorial 3-7: Exporting maps</b> .....	125
<b>Tutorial 3-8: Creating multiple output pages</b> .....	128
<b>Summary</b> .....	133
<b>Assignment 3-1: Compare uninsured with minority populations in California counties</b> .....	134
<b>Assignment 3-2: Compare Texas population density with housing statistics</b> .....	135
<b>Assignment 3-3: Compare percentage in poverty with percentage unemployed</b> .....	137
<b>Chapter 4: Projecting, downloading, and using spatial data</b> .....	139
<b>Health-care scenarios</b> .....	139
<b>Solution approaches</b> .....	140
<b>World projections</b> .....	142
<b>Tutorial 4-1: Exploring map projections for a world AIDS study</b> .....	143
<b>Tutorial 4-2: Symbolizing area maps using size-graduated point markers</b> .....	147
<b>Tutorial 4-3: Creating a prevalence map using point markers</b> .....	151
<b>Country-level data and continental projections</b> .....	153
<b>Tutorial 4-4: Downloading international HIV/AIDS data</b> .....	154
<b>Tutorial 4-5: Exploring map projections for a US lung cancer study</b> .....	158
<b>Local-level spatial data</b> .....	160
<b>Tutorial 4-6: Adding and symbolizing existing map layers</b> .....	160
<b>Tutorial 4-7: Working with spatial data formats</b> .....	165
<b>Tutorial 4-8: Creating points from x,y coordinates</b> .....	170
<b>Tutorial 4-9: Downloading USGS raster maps</b> .....	174
<b>Summary</b> .....	178
<b>Assignment 4-1: Compare world infant mortality rates with life expectancy</b> .....	179
<b>Assignment 4-2: Investigate women who are literate and HIV prevalence by country</b> .....	180
<b>Assignment 4-3: Compare the walkability of neighborhoods</b> .....	182
<b>Chapter 5: Downloading and preparing spatial and tabular data</b> .....	185
<b>Health-care scenario</b> .....	185
<b>Solution approach</b> .....	185
<b>Tutorial 5-1: Building a lead study comparison map</b> .....	187
<b>Tutorial 5-2: Showing elevated blood lead levels by tract</b> .....	190
<b>Tutorial 5-3: Showing elevated blood lead levels by municipality and neighborhood</b> .....	194
<b>Summary</b> .....	200
<b>Assignment 5-1: Map housing complaints compared with elevated blood lead levels</b> .....	201

<b>Chapter 6: Geocoding tabular data</b> .....	203
<b>Health-care scenario</b> .....	203
<b>Solution approach</b> .....	203
<b>Polygon address matching</b> .....	204
<b>Tutorial 6-1: Geocoding patients to zip codes</b> .....	204
<b>Tutorial 6-2: Spatially joining patient and zip code layers</b> .....	211
<b>Tutorial 6-3: Creating a choropleth map showing patient counts by zip code</b> .....	213
<b>Linear address matching</b> .....	215
<b>Tutorial 6-4: Geocoding hospital addresses to streets for competitive analysis</b> .....	215
<b>Tutorial 6-5: Rematching addresses</b> .....	223
<b>Tutorial 6-6: Creating a final comparison map</b> .....	233
<b>Summary</b> .....	234
<b>Assignment 6-1: Map mammography clinics by zip code compared with female population</b> ..	234
<b>Assignment 6-2: Map mammography clinics in a county by street address</b> .....	236
<b>Part 3: Spatial analysis</b> .....	239
<b>Chapter 7: Processing and analyzing spatial data</b> .....	239
<b>Health-care scenario</b> .....	239
<b>Solution approach</b> .....	240
<b>Tutorial 7-1: Preparing a study region</b> .....	242
<b>Tutorial 7-2: Making additional table and map preparations</b> .....	254
<b>Tutorial 7-3: Investigating the correlation between poverty and injuries</b> .....	262
<b>Tutorial 7-4: Investigating injuries near parks</b> .....	273
<b>Summary</b> .....	279
<b>Assignment 7-1: Conduct proximity analysis for playgrounds</b> .....	280
<b>Assignment 7-2: Map injuries near schools and convenience stores</b> .....	281
<b>Assignment 7-3: Study injury rates by neighborhood</b> .....	283
<b>Chapter 8: Transforming data using approximate methods</b> .....	285
<b>Health-care scenarios</b> .....	285
<b>Solution approach</b> .....	286
<b>Tutorial 8-1: Aggregating block data for the elderly population to health referral regions</b> .....	288
<b>Tutorial 8-2: Apportioning poverty data to emergency medical service zones</b> .....	294
<b>Tutorial 8-3: Automating processes using ArcGIS ModelBuilder</b> .....	313
<b>Summary</b> .....	322
<b>Assignment 8-1: Map the population in emergency medical service zones</b> .....	323
<b>Assignment 8-2: Map the youth poverty population in emergency medical service zones</b> .....	324

<b>Chapter 9: Using ArcGIS Spatial Analyst for demand estimation</b> .....	327
<b>Health-care scenario</b> .....	327
<b>Solution approach</b> .....	327
<b>Out-of-hospital cardiac arrest study</b> .....	329
<b>Tutorial 9-1: Processing raster map layers</b> .....	329
<b>Tutorial 9-2: Creating a hillshade raster layer</b> .....	333
<b>Tutorial 9-3: Making a kernel density map</b> .....	335
<b>Tutorial 9-4: Extracting raster value points</b> .....	339
<b>Tutorial 9-5: Conducting a raster-based site suitability study</b> .....	342
<b>Index of poverty risks</b> .....	349
<b>Tutorial 9-6: Using ArcGIS ModelBuilder to create a risk index</b> .....	349
<b>Summary</b> .....	360
<b>Assignment 9-1: Display schools and land use for locating school-based health centers</b> .....	360
<b>Assignment 9-2: Determine heart attack fatalities outside of hospitals by gender</b> .....	362
<b>Part 4: GIS case studies</b> .....	365
<b>Chapter 10: Studying food-borne disease outbreaks</b> .....	365
<b>Health-care scenario</b> .....	365
<b>Case study requirements</b> .....	366
<b>Phase 1: Assemble basemaps</b> .....	368
<b>Phase 2: Trace an outbreak source</b> .....	369
<b>Phase 3: Identify affected office buildings</b> .....	370
<b>Phase 4: Assess vulnerable populations</b> .....	371
<b>Chapter 11: Forming local chapters of ACHE</b> .....	373
<b>Health-care scenario</b> .....	373
<b>Case study requirements</b> .....	374
<b>Phase 1: Create market analysis maps</b> .....	375
<b>Phase 2: Create territory analysis maps</b> .....	376
<b>Phase 3: Track chapter status</b> .....	377
Image and data source credits.....	379
Data license agreement .....	385
