	Introduction: The origins of Tacare by Jane Goodall	xv
	The Jane Goodall Institute's approach to community-led conservation	
1	The human-made island	1
	Jumanne Kikwale meets Jane Goodall at an impressionable age; Anthony Collins arrives to study Gombe's baboons	
2	Paradigms and problems	17
	Jumanne Kikwale moves back to Kigoma to teach the next generation about trees; Anthony Collins recalls Tacare's earliest steps—and missteps	
3	1994: Understanding deforestation	29
	George Strunden and the genesis of Tacare	
4	1994: The forester	41
	Aristides Kashula sees both the forests and the trees	
5	Cultivating a holistic approach	53
	Emmanuel Mtiti dances with donors	
6	Creating a common language	67
	Lilian Pintea uses mapping technologies to develop a dialogue between communities and conservationists	
7	Local ambassadors: Learning from and speaking for the chimps	86
	Gabo Paulo Zilikana, Eslom Mpongo, Hamisi Mkono, Fatuma Kifumu, and Yahaya Almas reflect on decades of chimp observation at Gombe	
8	A confluence of disciplines	102
	Shadrack Kamenya explains why indigenous researchers are essential to outreach efforts; Deus Mjungu dedicates his career to creating habitat corridors for endangered wildlife	

9	The cycles of old and new	112
	Japhet Mwanang'ombe educates and inspires the younger generation; Hamisi Matama preserves the traditional ecological knowledge his mother taught him	
10	Seeking homeostasis	126
	KANYACODA, VHTs, PFOs, KIKACODA: Working toward human and ecological health in Uganda	
11	The fatal interface	144
	KACODA, Uganda: Finding successful strategies to reduce human-chimp conflict	
12	From the cloud to the ground	152
	Uganda Wildlife Authority: Obed Kareebi, Frank Sarube, and Philemon Tumwebaze on poverty, technology, and conservation	
13	Outreach through fire	163
	Dario Merlo hears Jane's words of hope as bombs fall on Goma	
14	The banks and the bees	176
	Phoebe Samwel links microcredit to women's empowerment; KICODA harvests honey—and venom	
15	Changing the retirement plan	191
	Sania Lumelezi manages difficult conversations about choice	
16	Of women champions	198
	Alice Macharia paves the way for African women in conservation; Yakaka Saweya explains why so many village girls don't complete their education	
17	The cycle of regeneration	209
	Alice Macharia is in it for the long term—and the short term	
18	A 'talking office' with maps	219
	Joseline Nyangoma wants science to tell a story	
19	People, pixels, and puff adders	229
	Lilian Pintea contemplates different ways of knowing	
	Conclusion	239
