

CONTENTS

<i>Preface</i>	<i>vii</i>	Tutorial 2.2: Building a map with the Compilation panel	33
<i>Acknowledgments</i>	<i>ix</i>	A tour of the Processes panel	40
<i>Introduction</i>	<i>xi</i>		
Chapter 1: Welcome to ArcGIS Maps for Adobe Creative Cloud	1	Chapter 3: The advantages of synced maps	43
Advantages of Maps for Adobe Creative Cloud	i	Tutorial 3.1: Exploring a synced map file	48
Getting started with Maps for Adobe Creative Cloud	9	Tutorial 3.2: Adding customized layers to a synced mapboard	54
Chapter 2: Exploring the Maps for Adobe Creative Cloud user interface	13	Chapter 4: Managing map content using Maps for Adobe Creative Cloud	65
Maps for Adobe Creative Cloud panels	13	Content organization structure and access	65
What is a mapboard?	14	Tutorial 4.1: Making thematic maps	68
Mapboards panel features	17	Tutorial 4.2: Custom symbols using the Processes panel	78
Tutorial 2.1: Creating a mapboard	21	Local data	87
Mapboard toolbar	26		
Compilation panel	26		

Chapter 5: Advanced mapmaking using Maps for Adobe Creative Cloud

89

Using analytical tools for better map stories	89
Map projections	89
Geo-analysis tools	92
Tutorial 5.1: Winnipeg airport map	93
Tutorial 5.2: Visualize routes to rock-climbing destinations	99
Tutorial 5.3: Add demographic data	108

Chapter 6: Customizing maps using the Processes panel

119

Tutorial 6.1: Mapping the Olympic Peninsula	119
--	-----

Chapter 7: The ArcGIS Pro-to-Illustrator workflow

133

About ArcGIS Pro	134
A complete workflow	134
Part 1, Authoring a map or layout in ArcGIS Pro for Maps for Adobe Creative Cloud	135
Exporting from ArcGIS Pro to Illustrator via AIX file	148
Part 2, Working with an AIX file	154
