

# Contents

## Foreword | 7

## Introduction | 9

## An Ecosystem of Open Data | 10

Esri Provides Open Access to Key Federal Geospatial Data | **12**

To Better Understand the Earth | **16**

UN Sustainable Development Goals Put a Global Spotlight on Local Action | **20**

York Region Pioneers Next-Level Local Government Collaboration | **24**

Seeing Near Real-Time Changes on Earth with New AI Map | **28**

## Climate Action | 32

For Global Leaders Focused on Climate Action, GIS Technology Is Foundational | **34**

How an Atlas of San Francisco Bay Is Helping Deal with Sea Level Rise | **36**

Uppsala, Sweden, Creates a Detailed Digital Twin to Enhance Sustainability | **40**

Urban Parks Play a Big Role in Curbing Inequity and Climate Impacts | **44**

Finding a Home for Solar: Kentucky Maps Prime Renewable Energy Sites | **48**

## Infrastructure | 52

5D: The New Frontier for Digital Twins | **54**

Expediting Water Relief for the Navajo Nation | **58**

London: Maps and Location Technology Promote Mobility and Health | **62**

Hampton Roads Gains a New Operational Awareness to Improve Wastewater Operations | **66**

Along the Mekong River, Development Creates Sustainability Concerns | **70**

## Public Safety and Humanitarian Response | 74

Location Intelligence Empowers Aid Organizations to Act as One | **76**

American Red Cross and Partners Work from One Map to Reach People in Crisis | **80**

Fire Management Analyst Tackles Wildfire in the Field and in the Office | **84**

To Find People in Crisis, Illinois Rolls Out Next Generation 911 | **88**

How Technology and GIS Students Aided Response to the Great Flood of 2019 | **94**

## Defense and National Security | 98

US Navy Puts Tactical Tools to the Test | **100**

Cold War Spy Imagery Now Helping Fight Climate Change | **104**

In Back-to-Back Hurricanes, Louisiana National Guard Calls on Predictive Model | **108**

Hollywood Tricks and Location Technology Catch Poachers of Sea Turtle Eggs | **112**

Cybersecurity: The Geospatial Edge | **116**

## Conservation and Environmental Protection | 120

Mapping America's Land and Sea: A Time for 'Precision Conservation' | **122**

Applying Science and Mapping to Safeguard Species: Half-Earth Project | **126**

Maps Cut through the Fog in Peru to Help Preserve Unique Ecosystems | **130**

Drones Key to Mapping Massive Barrel Dump Site Off Southern California Coast | **134**

Mapping to Protect Natural Heritage and Biodiversity in South Carolina | **138**

## Health | 142

COVID-19: An Iowa Epidemiologist, Maps, and a True Passion for Public Health | **144**

Chile Achieves Rapid Vaccinations with Dashboards Marking Progress | **148**

The COVID-19 Delta Variant: This Map Provides Answers | **152**

It's in the Wastewater: How UC San Diego Senses and Maps COVID-19 | **156**

How Maps Inform Public Health Decisions in San Bernardino County | **160**

## Equity and Social Justice | 164

If More Women Owned Land, More People Might Be Fed | **166**

Online Schooling Prompts Municipalities to Map Digital Inequities | **170**

Maps Show the Real Picture of Race and Equity in Oakland | **174**

How Austin's Map of Trees Helped City Leaders See and Tackle Social Inequities | **178**

Maps and Data Strengthen Calls for Housing Equity in Houston | **182**
