

# ArcGIS Experience Builder: Building your first widget

David Martinez

2021 ESRI  
DEVELOPER SUMMIT

# Agenda

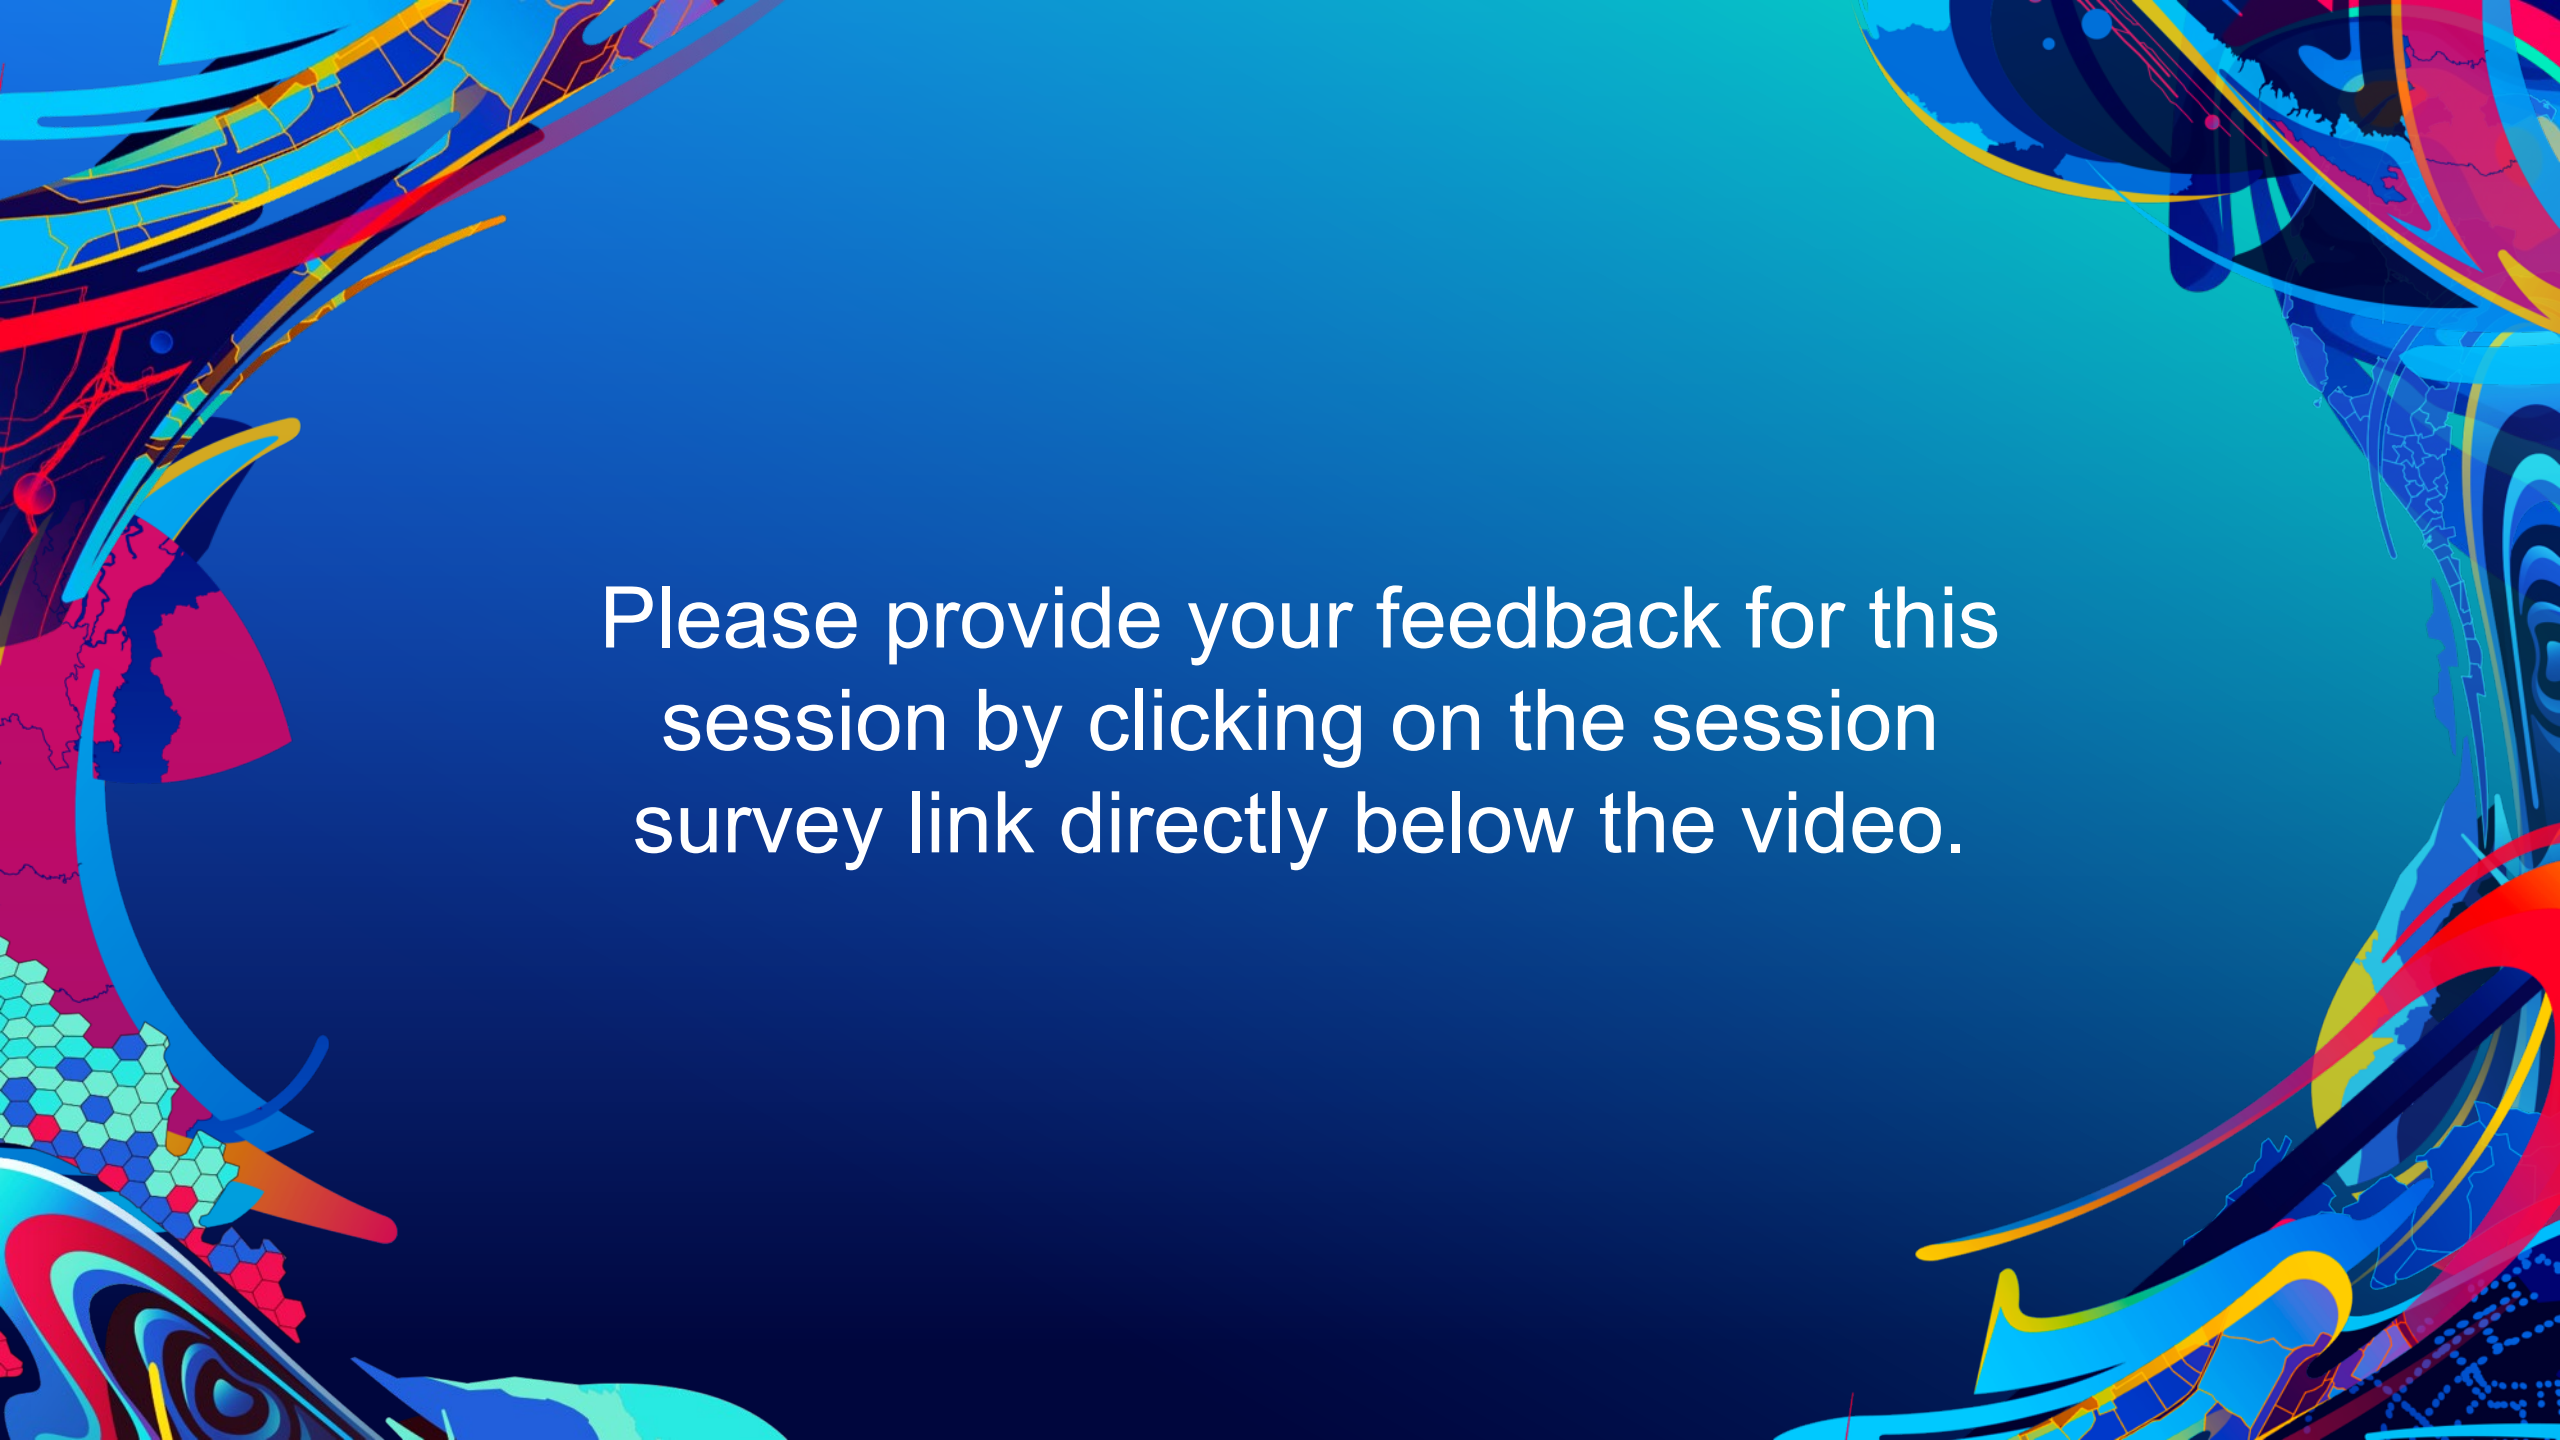

- Create a widget

# Creating a widget - Demo

The background features a vibrant, abstract graphic design. It consists of various overlapping shapes, including curved lines, geometric patterns, and textured areas in shades of blue, red, and yellow. The overall aesthetic is modern and digital, suggesting a theme related to technology or user interface design.

# Resources

- Code for this presentation : <https://git.io/Jt6rJ>
- Samples repo: <https://github.com/Esri/arcgis-experience-builder-sdk-resources>
- Doc site: <https://developers.arcgis.com/experience-builder/>
  - Guide
  - Sample code
  - API reference
- Post questions and feedback: <https://community.esri.com/t5/arcgis-experience-builder/ct-p/arcgis-experience-builder>
