

NEEDS

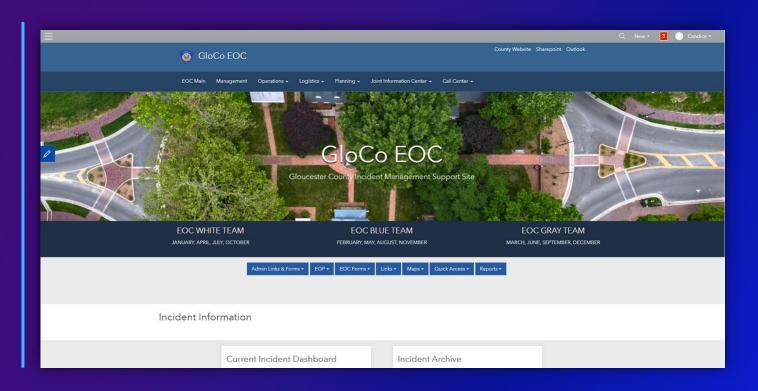

ENHANCEDEOC

Better visualization of incident
User Friendly & Intuitive
Easily customizable & scalable
Paired well with staff experience
and EOC environment

ENHANCEDEOC

- ✓ Better visualization of incident
 - ✓ User Friendly & Intuitive
- ✓ Easily customizable & scalable
- ✓ Paired well with staff experience and EOC environment

CREATION PROCESS

SIX MONTHS

- Created Project
- Created feature classes
- Published as web layers

ArcPro

AGOL

- •Web Map for each EOC section/branch
- •Web App Builder
- Dashboard
- •GeoForm

- Layout and Design
- Added ESRI solutions
- Developed and added written content

HUB

SharePoint

- Document Storage
- •Check-lists & To-do Lists
- Non-geographic based items

Tested functionality internally

Test group

Testing

Implementation

 Side by side use with other product
